ANCIENT NUMISMATICS

Addison on Ancient Coins

I Addison, Joseph. **DIALOGUES UPON THE USEFULNESS OF ANCIENT MEDALS. ESPECIALLY IN RELATION TO THE LATIN AND GREEK POETS.** [followed by] **THREE SETTS OF MEDALS ILLUSTRATED BY THE ANCIENT POETS, IN THE FOREGOING DIALOGUES.** Vol. III of *Miscellaneous Works, in Verse and Prose, of the Late Right Honourable Joseph Addison, Esq; With Some Account of the Life and Writings of the Author, by Mr. Tickell.* London: Printed for J. and R. Tonson and S. Draper in the Strand, 1746. Small 8vo, contemporary full speckled calf decorated in blind; spine with five raised bands; remnants of spine labels; all page edges red. (3)–328, (8) pages, including 31 plates illustrating Roman coins. Binding sound, but worn, with weak hinges and rubbed spine; crude repair to upper boards; contents generally fresh. Very good or so. **\$150**

A scarce edition of this work. A defense of numismatics written in the form of a discourse between Cynthio, Eugenius and Philander, followed by three series of woodcut plates of Roman coins, and preceded by Alexander Pope's "Verses Occasion'd by Mr. Addison's Treatise of Medals." Addison was one of the most important English essayists, and was, through *The Spectator* (which he published with Richard Steele), one of the guardians of good taste at the time. His opinions on the merits of coin collecting mattered. This volume also includes Addison's "The Present State of the War" and "Of the Christian Religion." Dekesel A44. Hirsch 2 (citing the 1726 edition). Lipsius 4 (citing the 1726 edition). Ex Barry Tayman Library.

OUVRAGE ILLUSTRÉ DE GRAVURES DANS LE TEXTE ET ACCOMPAGÉ DE XXII PLANCHES EN PHOTOTYPIE**. Fine. **\$300**

A beautifully illustrated volume on engraved gems. Babelon's volumes traces the development of the art of gem engraving, so often coupled in technique with die engraving, from the Merovingian era to his own time. He made the claim, bold at the time but accepted today, that most of the engraved gems set in medieval fixtures that were thought to be from antiquity were in fact products of the middle ages themselves and that the glyptic tradition had continued to develop during the Merovingian and (especially) Carolingian periods before flourishing again during the Renaissance. A scarce and important study. A copy sold for \$650 hammer in our Sale 165. Sinkankas 273. Ex Pierre Bastien Library, with his bookplate.

First Part of Bahrfeldt's Revision of Babelon on Roman Republican Coins

22 Bahrfeldt, M. **NACHTRÄGE UND BERICHTIGUNGEN ZUR MÜNZKUNDE DER RÖMISCHEN REPUBLIK IM ANSCHLUSS AN BABELON'S VERZEICHNISS DER CONSULAR-MÜNZEN. I. BAND**. Numbered and signed by the author. Marginal tear to final plate, else fine. **\$300**

Bahrfeldt's revision of Babelon is one of the most important works ever published on Roman Republican coins. It was originally published in three parts over four volumes of the *Numismatische Zeitschrift* (1896–1897, 1900 and 1918). This volume comprises the separately published book (offprint) edition of the first part—and is a very early copy, being No. 8. A landmark work, rarely offered complete (the third part was not published for nearly twenty years after the second). A set composed of all three signed offprints sold for \$4250 hammer in our RBW Library sale. Clain-Stefanelli 3715*: "An essential addition to Babelon's work."

Riechmann & Co., is identical in all but title (see under Riechmann). Very scarce: this is the only the second copy we have handled since the 2014 Kreindler Library sale. Ex L.D. & I.P. Library.

Gold Coins of the Roman Republic & Augustus

The 1755 Richard Mead Sale

25 Baker, Samuel. **MUSEUM MEADIANUM, SIVE, CATALOGUS NUMMORUM, VETERIS AEVI MONUMENTORUM, AC GEMMARUM, CUM ALIIS QUIBUSDAM ARTIS RECENTIORIS ET NATURAE OPERIBUS; QUAE VIR CLARISSIMUS RICHARDUS MEAD, M.D. NUPER DEFUNCTUS COMPARAVERAT.** Londoni: Catalogus prostat apud A. Langford in area dicta Covent-Garden; et S. Baker in vico dicto York-Street, 11-19 February 1755. (4), 210 pages; engraved frontispiece plate illustrating the obverse and reverse of eight Roman coins. Hand-priced and named in ink. [bound with] **MUSEI MEADIANI, PARS ALTERA: QUAE VETERIS AEVI MONUMENTA AC GEMMAS, CUM ALIIS QUIBUSDAM ARTIS RECENTIORIS ET NATURAE OPERIBUS, COMPLECTITUR.** Londoni: Apud A. Langford in area dicta Covent-Garden, 11 March 1755. (211)-262 pages; 593 lots in all. Two parts, complete, in one volume. 8vo, modern brown half leather, gilt, with marbled sides; spine with two raised bands, ruled and lettered in gilt. Early institutional stamps; near fine. **\$600**

Probably the earliest truly important numismatic auction to take place in Great Britain. Manville & Robertson page 10: "Mead's sale offered the most extensive collection of coins in London to that date and the purchasers included many well-known eighteenth-century English collectors. Many lots contained 20-40 Roman coins, each described with full legends, which helps explain the catalogue's length of more than 200 pages for fewer than 600 lots." A monumental early sale. Bound with this copy is the second portion of the sale, featuring gems, antiquities, etc. The coins were catalogued by George North, with the ancient Greek and Roman coins being described in Latin and the British and oriental coins and medals in English. Lord Rockingham purchased several important lots of Roman coins at the sale. Subsequently, Earl Fitzwilliam purchased the Rockingham collection, and the former's collection was sold at Christie's, London in May 1949. The Mead sale is the first coin auction of the firm that became Sotheby's. Samuel Baker held his first sale in 1744, a book sale offering the library of Sir John Stanley, Bart. The company eventually expanded to include George Leigh and John Sotheby, and it gradually transformed over the years into its present form. Ex L.D. & I.P. Library.

The first part published of this landmark work. Best described in Clain-Stefanelli's *Numismatics—An Ancient Science* (pages 42–43): “Imhoof-Blumer's name trails like a comet across the field of Greek numismatics.... Inspired by Theodor Mommsen's idea of creating an extensive work on Greek coins as a companion to the ‘Corpus of Latin

▲ Lot 32

Inscriptions,' the Prussian Academy of Sciences in Berlin assigned to Imhoof-Blumer the direction of *Die antiken Münzen Nord-Griechenlands*. Such a corpus was intended to supersede all publications on the subject by describing every known coin type of each city or province within a chronological sequence, with full attention given to all available source material. This dream of a corpus of all ancient Greek coins seems to have haunted numismatists since the early 16th century, when Wolfgang Lazius first proposed such a work. But it proved too ambitious even for the late 1800s, and despite competent scholars, this gigantic German work progressed very slowly until it finally came to a halt in the late 1930s." The second part of the Dacia & Moesia volume was not published until 1910, with the result that sets are frequently encountered separately. Clain-Stefanelli 1806* & 2417*. Daehn 3620. Ex Edoardo Levante Library, with his bookplate; ex Bibliothek Dr. Efrem M. Pegan, with his bookplate and stamp.

Paris: E. de Boccard, 1937. 8vo, later black cloth-backed decorative boards; hand-lettered spine labels; original printed accompanying plate folder. xi, (1) 558, (2), xvi pages; 88 fine plates, some folding, some depicting coins. Inscribed by the author; previous owner's ink stamp on title and plates. Text unopened. Near fine. **\$100**

Rarely encountered. Collart's book was well-received, with Ronald Syme's effusive review in the *Classical Review* for 1938 stating: "The book is beyond praise. Not only is it lucidly and elegantly written, as one would expect of its talented author: it is fully documented, in every sense, for there is a companion volume in the shape of a stout folder containing plans and photographs. The study of Philippi is thus illuminated in every way—epigraphy, sculpture and religion and well as topography. A brief review cannot do justice." The Gazette of the Hôtel Drouot

Rarely available, being ephemeral in nature, the *Gazette de l'Hôtel Drouot* began life as a daily newssheet published by Charles Oudart in 1891. By the period represented by these issues, the *Gazette* was published three times weekly, and reported on the various auctions taking place in this storied Parisian auction venue. The publication continues today in different form. Ex L.D. & I.P. Library.

Raymond & Charles Dupriez's Set of Their Own Catalogues Including Many Named Sales & Rarities

69 Dupriez, Maison. NUMISMATIC SALE CATALOGUES FROM THE DUPRIEZ LIBRARY. Bruxelles, 1882–1934. Twenty-three volumes, as follows.

VOLUME ONE. Bruxelles, 1882–1885. Eleven catalogues, plus supplementary materials, as follows: Chez Dupriez. *Catalogue de monnaies françaises et étrangères ... aux prix marqués*. [with] Chez Dupriez. No. 2. *Catalogue de livres sur l'histoire, l'archéologie et la numismatique*. [with] Chez Dupriez. No. 3. *Catalogue de livres sur l'histoire, l'archéologie & la numismatique*. [with] Chez Dupriez. No. 4. *Catalogue de livres sur l'histoire, l'archéologie & la numismatique*. [with] Chez Dupriez. *Supplément au catalogue de livres sur l'hist. l'archéologie et la numismatique*. [with] Chez Dupriez. No. 5. *Catalogue de livres sur l'histoire, l'archéologie & la numismatique*. [with] Librairie Dupriez. No. 6. *Catalogue mensuel*. [with] Librairie Dupriez. No. 7. *Catalogue mensuel*. Supplementary sheet included. [with] R. Dupriez. No. 8. *Catalogue de médailles, monnaies & jetons, de livres...* [with] R. Dupriez. No. 9. *Catalogue de livres sur l'histoire, l'archéologie & la numismatique, et médailles*. [with] R. Dupriez. No. 10. *Catalogue de médailles, monnaies & jetons*. [with] Chez Dupriez. *Catalogue de médailles, monnaies & jetons*. 8vo, contemporary green cloth-backed mottled boards; spine lettered in gilt; original printed paper covers bound in where issued. Very good or better.

The earliest Dupriez catalogues (all of them fixed price lists), most heavily devoted to numismatic books, with varying numbers of ancient, medieval and modern coins and medals included. Features the first ten numbered catalogues followed by an unnumbered emission, plus some supplementary pages. The first copies of these rare early publications that we recall seeing. Undated, the 1882–1885 dates are taken from this volume's spine. As the name of the firm varies somewhat from catalogue to catalogue, we are recording its use on each.

VOLUME TWO. Bruxelles, 1885. Four catalogues, all but one present in duplicate, as follows: Raymond Dupriez. 13–14 février 1885. [with] R. Dupriez. 4 août 1885. [with] R. Dupriez. 30 octobre 1885. One copy only. [with] Raymond Dupriez. 16 décembre 1885. 8vo, contemporary maroon cloth-backed mottled boards; spine lettered in gilt; original printed paper covers bound in where issued. Front board detached, but pres-

ent; in need of rebinding. Very good or so.

The first four Dupriez auction catalogues, each offering a variety of material including ancient, medieval and modern coins and medals. No consignors are indicated in the catalogues. Very rare. Intriguingly, two copies of each catalogue are included (with one exception)—it's difficult to imagine this volume having been compiled by anyone other than Dupriez himself, and indeed a later volume in this collection includes a letter from bookseller Gilles Wolles attesting that the volumes come from the Dupriez Library.

VOLUME THREE. Anvers, 8–10 avril 1886. *Les collections van der Straelen-Moons-Van Lerijs à Anvers. Catalogue raisonné. Tome IX. Catalogue des monnaies, jetons, et médailles.* Two copies of this substantial catalogue, the first being interleaved, with prices and buyers' names recorded. 8vo, contemporary maroon cloth-backed mottled boards; spine lettered in gilt; original printed paper covers bound in. Binding worn and in need of restoration. Very good or so.

A rare catalogue, written as the ninth volume of the catalogue raisonné of the massive collection of Jan-Frans van der Straelen (1731–1801), his son Jan-Baptist van der Straelen (1761–1847), his son in law Pieter-Theodoor Moons-van der Straelen (1803–1860), and Pieter's son in law Theodoor-Frans-Maria Van Lerijs (1819–1880). While the overall collection was not handled by Dupriez, Raymond Dupriez was called upon to catalogue this volume, which focused on the coin collection. Very rare, especially with prices and names. This volume bears Dupriez's ink stamp, further indicating that it is from his own library.

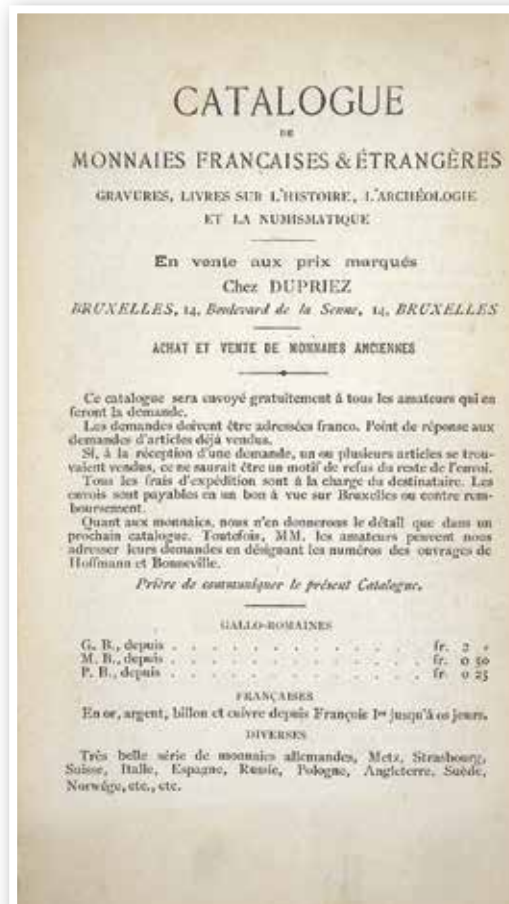

VOLUME FOUR. Bruxelles, 1886(?)–1890. Five catalogues, each present in duplicate, as follows: R. Dupriez. No. 11. *Catalogue de médailles, monnaies & jetons.* [with] *Supplément au catalogue No. 11.* [with] R. Dupriez. No. 12. *Catalogue de livres sur l'histoire, l'archéologie & la numismatique.* [with] Raymond Dupriez. No. 13. *Catalogue de médailles, monnaies & jetons.* 1888. [with] R. Dupriez. No. 14. *Catalogue de monnaies anciennes en or et en argent.* 1889. [with] R. Dupriez. No. 15. *Catalogue de monnaies anciennes, jetons et médailles.* 1890. 8vo, contemporary green (faded to brown at spine) cloth-backed mottled boards; spine lettered in gilt; original printed paper covers bound in where issued. Very good or better.

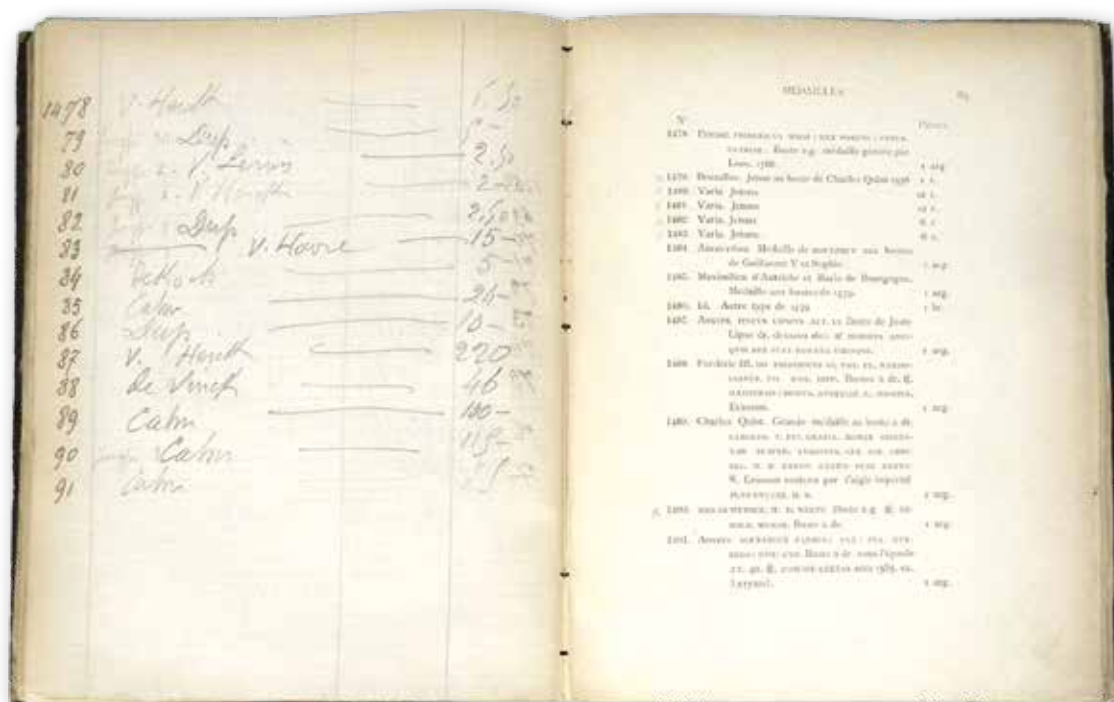

Subsequent Dupriez fixed price lists, being Nos. 11–15 of the numbered series. Like the above, very rare. Still heavily devoted to numismatic books, but with growing numbers of coins and medals included (especially ancient coins). The first two catalogues are undated. Again, two copies of each catalogue are included, and it is likely that this volume was compiled by Dupriez himself.

VOLUME FIVE. Bruxelles, 1887–1889. Seven catalogues, each present in anywhere from one to four copies, as follows: Raymond Dupriez. *Collections de MM L... et Tastenou.* 28–29 novembre 1887. Hand-priced and named in pencil. [with] Raymond Dupriez. 30 janvier 1888. Two copies, the first priced and named in pencil, the second annotated in pencil and ink. [with] R. Dupriez. 12 mars 1888. Four copies, the second priced and named, the others annotated to greater or lesser degrees. [with] Raymond Dupriez. 9 juillet 1888. A further offering of six Dupriez auction catalogues, each represented here with at least one copy that is hand-priced and named. This is the volume with the letter from bookseller Gilles Wolles affirming the conclusion that these volumes in fact come from Dupriez firm's library.

As mentioned above, Raymond Dupriez died in 1893, and this volume represents a transitional period. The 14–15 décembre 1896 sale is Spring 135, and features two photographically printed plates, both depicting ancient coins. The 26 mai 1898 sale, with three plates (two of them of ancients) is unlisted by Spring, though it qualifies for inclusion. A few of the pieces on the double plate included in the 7–8 octobre 1895 catalogue are also ancient. Many of these catalogues are exceptionally rare, with many being the only examples we have handled.

VOLUME NINE. Bruxelles, 1896. (4), 86, (2) pages; 1958 listings. Near fine.

A rare early fixed price catalogue issued by Charles Dupriez (1871–1952), successor (and younger brother) of the firm's founder Raymond Dupriez (d. 1893).

VOLUME TEN. Bruxelles, 1899–1903. Fifteen catalogues, as follows: Ch. Dupriez. *Vente Ballion.* 25–26 janvier 1899. Prices realized list bound in. [with] Ch. Dupriez. *Collections de M. Hand-priced in ink. 8vo, contemporary red half morocco; spine with four raised bands, ruled, lettered and decorated in gilt; marbled endpapers; original printed paper or card covers bound in. Both boards detached but present; very good.

An extraordinary volume, featuring 15 auction catalogues, seven of which have fine photographically printed plates. The 14 octobre 1902 catalogue of the *Collections de Madame Gebhard et de Monsieur X...* stands out for its ten plates of medals, an exceptional offering. The 1–2 mai 1901 sale is Spring 136; unlisted by Spring are the 31 janvier 1900, 12–14 décembre 1900, 6–7 février 1902 and 25–26 février 1903 sales, all of which include at least some ancient coins on their plates.

VOLUME ELEVEN. Bruxelles, 1904–1908. Six catalogues, as follows: Ch. Dupriez. *Collection de Monsieur de M. X.* 10 février 1904. Hand-priced in ink. [with] Ch. A notable volume, featuring six auction catalogues, three of which have fine photographically printed plates, and two of which are priced and named. The 17 octobre 1905 sale is Spring 137, and that dated 12 décembre 1906 is Spring 138; unlisted by Spring is the 22–23 novembre 1904 sale, which also includes some ancient coins on one plate.

VOLUME TWELVE. Bruxelles, c. 1905–1907. Dupriez, Charles. *Monnaies, médailles, jetons, méreaux, etc. En vente aux prix marqués.* Titles vary. Eight catalogues: Nos. 84, 85, 86, 87, 88, 89, 91, and 92. 8vo, contemporary red quarter morocco; spine with five raised bands, lettered and decorated in gilt; marbled endpapers; original printed front card covers bound in. Front board and spine detached from binding, but present and otherwise well-preserved.

Eight of Dupriez's scarce fixed price lists. Dupriez rarely dated his fixed price lists, which can make integrating them into a chronological listing of his other catalogues a frustrating experience. The presence in this set of so many of his dated auction catalogues allows us to assign more accurate dates to these publications than we have in the past.

VOLUME THIRTEEN. Bruxelles, c. 1905. *Catalogue No. 84. Médailles et jetons français en vente aux prix marqués.* 12mo, contemporary red cloth, gilt; original printed paper covers bound in. 97, (1) pages; 1540 listings. Fine.

A nicely preserved example of this scarce fixed price list, focused on the medals and jetons of France.

VOLUME FOURTEEN. Bruxelles, c. 1908. Dupriez, Ch. *Catalogue No. 97. Monnaies impériales grecques en potin frappées à Alexandrie d'Égypte. En vente aux prix marqués.* 8vo, later faux vellum, gilt; original printed paper covers bound in. 53, (3) pages; 1027 listings; 2 fine plates. Very good or better.

Perhaps the largest listing to date of the potin coins of Roman Alexandria, with two fine plates depicting examples of this debased third-century coinage. Very scarce.

VOLUME FIFTEEN. Bruxelles, 1909–1910. Four catalogues, as follows: Ch. Dupriez. *Catalogue No. 98. Collection de feu Mgr. Félix de Bethune.* 25 octobre 1909 et jours suivants. [with] Charles Dupriez. *Catalogue No. 101.* 28–29 novembre 1910. Hand-priced in ink. 8 fine plates. 8vo, contemporary red cloth-backed marbled boards; spine lettered in gilt; original printed paper or card covers bound in. Near fine.

Four auction catalogues by Dupriez, three of which have fine photographically printed plates. The sale beginning 25 octobre 1909 is Spring 139; the 28–29 octobre 1909 sale also includes two ancient coins on the first plate.

VOLUME SIXTEEN. Bruxelles, c. 1910–1912. Dupriez, Charles. *Numismatique. Catalogue périodique. Monnaies, médailles, jetons, méreaux, etc. En vente aux prix marqués.* Four catalogues: Nos. 102, 103, 104 and 105. 8vo, contemporary red quarter morocco; spine with four raised bands, ruled, lettered and decorated in gilt; decorative endpapers; original printed front card covers bound in.

[with] Charles Dupriez. *Catalogue No. 110bis. Collections de MM. Cogels et Moyaux, de M. le Chevalier X... (2me partie) et de M. Y....* 4–7 novembre 1912. Hand-priced in ink. 15 fine plates. [with] (Charles Dupriez). *Collection Moyaux. Médailles aux chemins de fer*. Offprint of the Moyaux consignment (lots 517–1094) of the previous catalogue, with 4 fine plates. [with] Charles Dupriez. *Catalogue No. 110ter. Collections de M. le Comte de C... et de M. le Chevalier X... (3me partie)*. 8 novembre 1912. Hand-priced in ink. 9 fine plates. 8vo, contemporary red cloth-backed marbled boards; spine lettered in gilt; original printed paper or card covers bound in. Near fine.

Three auction catalogues by Dupriez, all of which have fine photographically printed plates, plus a rarely encountered offprint of the Moyaux consignment from Sale 110bis. Dupriez published Auguste Moyaux's *Les chemins de fer autrefois et aujourd'hui, et leurs médailles commémoratives* (still a standard work on railroad medals) in 1905, with supplements in 1910 and 1925. The 31 janvier–1 février 1912 sale is Spring 140, and the 4–7 novembre 1912 sale is Spring 141.

Four catalogues: Nos. 106, 107, 108 and 109. 8vo, contemporary red quarter morocco; spine with four raised bands, ruled, lettered and decorated in gilt; decorative endpapers; original printed front card covers bound in.

Another well-preserved volume featuring four of Dupriez's fixed price lists.

VOLUME NINETEEN. Bruxelles, c. 1912–1914. Dupriez, Charles. *Numismatique. Catalogue periodique. Monnaies, médailles, jetons, méreaux, etc. En vente aux prix marqués*. Five catalogues: Nos. 110, 111, 112, 113 and 114. 8vo, contemporary red quarter morocco; spine with four raised bands, ruled, lettered and decorated in gilt; decorative endpapers; original printed front card covers bound in.

A similar volume featuring five of Dupriez's fixed price lists. Dates assigned to these are approximative.

VOLUME TWENTY. Bruxelles, 1913–1914. Two catalogues, as follows: Charles Dupriez. *Catalogue No. 112bis*. 7 avril 1913 et jours suivants. Hand-priced in ink. 29 fine plates. Three catalogues: No. 118 (*Monnaies et essais monétaires du Royaume de Belgique (première partie)*); an unnumbered (119?) catalogue of *Médailles belges contemporaines*; and No. 120, *La grande guerre : médailles, insignes, monnaies et jetons*. 8vo, contemporary red cloth with marbled sides; spine lettered in gilt; original printed card covers bound in. Near fine.

Three of Dupriez's fixed price lists, most important for Belgian medals. The last is an early compendium of numismatica from the First World War. Dates assigned to these are approximative.

An extraordinary set and a unique opportunity.

\$10,000

The Dupriez catalogues, spanning a period of over half a century, rarely receive the consideration they deserve, due partly to the rarity of many of them and partly to the bibliographical complexity of the series. Begun by Raymond Dupriez (d. 1893) and continued by his younger brother Charles (1871–1952), the series covers a wide array of ancient medieval and modern coins and medals. A number of the plated catalogues are not included in Spring's Ancient Coin Auction Catalogues 1880–1980, one of the most useful guides to the topic, attesting to their rarity. This is a rare opportunity to acquire a set of catalogues from the library of the firm itself, a set that has been kept intact since the catalogues were issued by the Dupriez brother. Ex L.D. & I.P. Library.

\$100

A very scarce early sale, the earliest listed by Spring for the firm. While the Egger firm had conducted one coin auction (catalogued by F.J. Wesener) in 1874, coins became a focus of the business in 1887, with fixed price lists being issued about once a year before auctions began to be held regularly in 1896. Armin Egger (1864–1929) developed the firm into one of the premier European numismatic auction houses of the day. With the breakout of World War I, Armin withdrew from the auction scene, though he continued his involvement in the numismatic field until his death. Spring 146. Ex L.D. & I.P. Library.

Jules Florange (1863–1936) held his first sale in 1890. He was studious by nature and a born collector, and the role of professional numismatist came readily. He founded the journal *Aréthuse* and formed one of the classic collections of jetons. In 1922, he joined forces with Louis Ciani (1894–1929), a brilliant younger numismatist who had begun holding sales in 1920. Ciani wrote a classic work on French coinage and was highly regarded as a cataloguer. The partnership lasted until Ciani's untimely death in 1929. The present lot includes all but one of the partnership's sales that qualify for inclusion in John Spring's Ancient Coin Auction Catalogues 1880–1980, plus one that doesn't make the cut (3 juillet 1925) but that does include some ancient content. Clain-Stefanelli 7978, 14360, 1694, 3652 (first part) and 1704. Grierson 258, 315, 279 and 281. Spring 179–184 & 186–189. Ex L.D. & I.P. Library.

Furtwängler's Classic Study of Ancient Gems

90 Furtwängler, Adolf. **DIE ANTIKEN GEMMEN. GESCHICHTE DER STEINSCHNEIDEKUNST IM KLASSISCHEN ALTERTUM. ERSTER BAND: TAFELN. ZWEITER BAND: BESCHREIBUNG UND ERKLÄRUNG DER TAFELN. DRITTER BAND: GESCHICHTE DER STEINSCHNEIDEKUNST IM KLASSISCHEN ALTERTUM.** Three volumes, complete. Amsterdam and Osnabrück: Hakkert & Zeller, 1964 & 1965 reprints. Folio [32.5 by 25 cm], original matching blue cloth, gilt. xvi, (2) + (8), 330, (2) + (4), vii–xiii, (3), 464, (2) pages; text illustrations; 67 + 3 fine tinted plates. Fine. **\$500**

The reprint of the classic work. Still of the greatest importance. Sinkankas 2277: "The word 'monumental' is justly applied to this work in respect not only to its size but also its content; it is the most comprehensive monograph ever published on the engraved gems of antiquity. Zazoff, *Gemmensammler*, p 224, states that 'no catalog, no encyclopedia article, no engraved gem book in the following period did not [fail] to orient itself upon Furtwängler.' To confer the greatest accuracy and authenticity to his work, Furtwängler personally visited many European museums to examine their collections. The first volume of 67 heliogravure plates, tinted in pale grayish-blue, sepia, or pale gray, provides images of many gems per plate, ranging from Near Eastern cylinder seals to Roman gems, while a series of plates depict several very large engraved gems as the great Parisian cameo, the Farnese tazza, and others which are not treated in the normal chronological order of the remainder of the plates... The second volume describes the depicted gems, with some additions and corrections appended to the main text. Such descriptions furnish data on gem material, provenance, where previously published, and remarks, but no dimensions inasmuch as all are shown actual-size. While these first two volumes are vital to the success of the work as a whole, it is the third volume which proves to be most valuable in terms of the information provided by Furtwängler on such aspects of engraved gem study as origins, significances, engravers, meanings of gems, values, use, their collectors, famous collections, techniques of engraving, and many more topics... The first issue of this work was a costly project and relatively few sets were sold with the result that any set offered is very expensive..." An opportunity to acquire a set at a fraction of the cost of the original. Ex Pierre Bastien Library, with his bookplate.

Eleven auction catalogues and two fixed-price lists from this notable if underappreciated Munich firm. While the Helbing firm traces its roots to 1878, most of the auction catalogues issued under the name of Otto Helbing post-date his retirement in 1912; the firm was run in later years by Heinrich Hirsch, Willy Schwabacher and Gerhard Hirsch until the Nazi era, during which management was assumed by Karl Krefß. The November 1928 sale consists of Lloyd duplicates and is particularly important. Clain-Stefanelli 1796 (April 1913), 2154 (November 1928), 3703 (June 1929), and 9225 (October 1927). The collection of Max Verworn, and probably the single most important catalogue ever of the coinage of the *Völkerwanderungszeit*: the era bridging late antiquity and the early medieval epoch that witnessed large-scale migrations of numerous peoples and a complex transformation of Europe. Held in Germany in 1922, the paper used in

printing the catalogue was highly acidic, leaving many surviving copies in poor condition. This is one of the best-preserved copies we've seen. The collection includes Roman, Byzantine, Vandal, Visigoth, Ostrogoth, Burgundian, Lombard, Merovingian, Anglo-Saxon and other coins. Very scarce. Clain-Stefanelli 5371. Grierson 288. Spring 327, deeming it the most important catalogue on the coins of the Barbarian Migrations. Ex L.D. & I.P. Library.

MONNAIES GRECQUES ET ROMAINES PROVENANT DES COLLECTIONS DE DIVERS AUTRES AMATEURS. Lucerne, 7 mars 1935. (6), 30 pages; 532 lots; 17 fine plates. The Greek portion of the sale (the first 437 lots) are mostly hand-priced with buyers' names recorded. [bound with] Hess AG, Adolph. CATALOGUE DE MONNAIES GRECQUES ET ROMAINES. I.: CÉSARÉE DE CAPPADOCE. LA COLLECTION DE M. LE REV. EDWARD A. SYDENHAM. II.: MONNAIES GRECQUES. III.: MONNAIES GRECQUES ET ROMAINES. IV. MONNAIES ROMAINES DE LA COLLECTION FRANZ TRAU. Five catalogues, bound in one volume. 4to, contemporary black quarter calf; spine lettered in gilt; decorative endpapers; original printed front card covers bound in. Very good. **\$200**

The first catalogue is Clain-Stefanelli 1682. Grierson 279. Spring 340. The second and third catalogues are of medieval and modern coins. The fourth catalogue is of the Tillman collection, and is rarely encountered with buyers' names recorded. Spring 341. The final catalogue is Spring 342 [also listed under "Most important sales of Roman Provincial coins"]. John Spring writes, in his *Ancient Coin Auction Catalogues 1880–1980*, that "There is some evidence that the firm of Spink & Son, in the person of Leonard Forrer, was behind many European

sales during the 1930s. There were no substantial auctions of ancient coins at Glendining between March 1931 and May 1936, and this was only a few years after the two Glendining/Seaby sales, which were proclaimed to be 'on the continental system,' but which were not continued and were perhaps deemed not to be a success.... Sotheby auctions were also sparse during the period, and the abundance of Sotheby ancient sales in the 1910s and 1920s was followed by only two significant ancient sales between 1929 and 1958." The first catalogue is Clain-Stefanelli 1940 and Grierson 279. Present are Spring 332, 333, 341 and 343 (the March 19, 1935 sale includes only a small number of plated ancient coins, and hence is unlisted by Spring).

Jacob Hirsch (1874–1955) began his career by selling material from the estate of his uncle, Heinrich Hirsch, who had been in the coin business prior to his death in 1886. He quickly earned a reputation for his scholarly cataloguing and extraordinary memory, leading to his assuming at a rather young age a prominent place in the numismatic trade in early 20th-century Europe. The famous series of *Ars Classica* sales, which began to be issued in 1921 under the Naville et Cie. imprimatur, cemented Hirsch's reputation for fine cataloguing and rigorous scholarship—a reputation he began to acquire with the present catalogues. All of the early Hirsch sales are scarce, and several are very rare. Contemporary but anonymous armorial bookplate; ex L.D. & I.P. Library.

Also included are occasional supplemental lists, *Sonderlisten Herbst* 1993–1995, and other inserts. The early lists are generally loose, as published. Bound volumes often a bit tightly trimmed; some issues wrinkled; still, generally near fine, with occasional exceptions. **\$600**

They remain particularly useful and important for researching rare and desirable ancient coins, while also featuring innumerable important medieval and modern European coins and medals. This lot includes over 500 of the 602 numbered issues published. The early lists are rarely met with, especially the first 75 issues, which were issued in a larger format. The new firm announced itself as follows in 1942: "We have succeeded in securing the collaboration of Mr. Erich and Dr. Herbert Cahn, who will take over the management. After several years' activity in their father's numismatic business in Frankfurt on Main, Messrs. Cahn have been conducting the affairs of the Münzhandlung Basel for nearly 7 years. ... We regret that the wartime conditions compel us to restrict ourselves to postal communications with our customers abroad, but we are confident that personal contact will be resumed, as soon as affairs have returned to normal." Fine photogravure frontispiece; xv, (1), 195, (1) pages; 137 lithographic plates. Fine. **\$150**

Sinkankas 5408: “In this valuable critique, Reinach provides short studies of the major engraved gem collections and the associated published works, as noted in the title above, along with remarks on the histories of the collections, their subsequent fates or dispersals, etc, supplemented by catalogs of the major gems in each and plates to illustrate same. The latter are reproduced from illustrations of the original publications. All in all, a most useful summary of the works in question, many of which may not be readily accessible to students of engraved gems. Reinach criticizes each work, and provides useful additional detail which he has been able to unearth from other sources, thus providing a fund of knowledge which would be difficult to match elsewhere, at least insofar as the specific works named above are concerned.” Ex Pierre Bastien Library, with his bookplate.

The Walcher de Molthein Greek Coins

165 Renner, Victor de. **CATALOGUE DE LA COLLECTION DES MÉDAILLES GRECQUES DE M. LE CHEVALIER LÉOPOLD WALCHER DE MOLTHEIN.** First edition. Paris: Rollin & Feuardent; Vienne: Adolphe Holzhausen, 1895. 4to, contemporary blue half morocco with mottled sides; spine with five raised bands, ruled and lettered in gilt. Engraved frontispiece portrait with tissue guard; vii, (1), 294, (2) pages; 3310 descriptions; 30 fine plates of coins and 1 plate of monograms. Inscribed to Charles Dupriez by Adolph Cahn on the half-title. Binding lightly rubbed; near fine. **\$300**

The handsomely produced catalogue of the Léopold Walcher de Molthein collection, the only source for fine illus-

trations of several hundred of the best coins later sold in the 1901 Cahn sale of the collection. The Cahn catalogue was written with the assumption that most bidders would have a copy of this work and, as a result, it is unprinted and takes a rather minimalist approach to the cataloguing. John Spring, in his *Ancient Coin Auction Catalogues*, cites this catalogue along with the sale catalogue. Most copies encountered are much the worse for wear. Babelon 232. Clain-Stefanelli 1999. Spring 63 [also listed under "Most important sales of ancient Greek coins"]. Ex Charles Dupriez Library; ex L.D. & I.P. Library.

The sole volume of the extensive De Clercq collection publications to be devoted to engraved gems. Louis De Clercq (1836–1901) was a French photographer and explorer who formed a massive collection of artifacts of the Syrian-Phoenician, Mesopotamian and Cypriote areas. He published his collection in seven volume (some, like this, in multiple parts) with Joachim Menant, with André de Ridder compiling the volumes published after De Clercq's death. The seven volumes cover: 1) Cylindres Orientaux; 2) Cachets, Briques, Bronzes, Bas-reliefs; 3) Les Bronzes; 4) Les Marbres, les Vases Peints et les Ivoires; 5) Les Antiquités Chyriotes; 6) Les Terres Cuites et les Verres; and 7) Les Bijoux et les Pierres Gravees. The collection was presented to the French state in 1967 by his great-nephew Count Henri de Boisgelin, which parts of it being integrated into the collections of the Louvre and other museums and others being sold. A rare title. Sinkankas 5461: "Not seen." Ex Pierre Bastien Library, with his bookplate.

Rare & Puzzling Work on Antiquities of Devon

189 Shortt, W.T.P. *COLLECTANEA CURIOSA ANTIQUA DUNMONIA; OR, AN ESSAY ON SOME DRUIDICAL REMAINS IN DEVON, AND ALSO ON ITS NOBLE ANCIENT CAMPS AND CIRCUMVALLATIONS, INTERSPERSED WITH MANY INTERESTING NUMISMATIC MEMORANDA AND NOTICES OF LATE DISCOVERIES OF ROMAN COINS, POTTERY, AND OTHER REMAINS IN EXETER AND DEVON.* Exeter: W.C. Featherstone, c. 1841. 8vo, original pebbled brown cloth, gilt. Title printed in red and black; lithographic illustration of Shilstone Cromlech on title; 96, (8) pages; 7 lithographic plates as printed on 6, with Plates 5 and 6 devoted to coins and tradesmen's tokens. Binding stained at fore-edge, but sound and intact; text with minor browning and discoloration. Ex library copy, with usual ink stamps; very good. **\$500**

A very scarce and little-known work, with numismatic content on a hoard of Roman silver coins discovered in 1836 at Poughill, 2000 Roman coins found at Kingskerswell in March 1839, a small find of Roman coins discovered in November 1837 at Bovey Tracey, and several other hoards of both Roman and British coins. In addition, over ten pages are devoted to 17th-century tradesmen's tokens. Plate 5 primarily depicts Roman coins, while Plate 6 illustrates a selection of tokens. Harrington Manville lists this work in his 2005 *Numismatic Guide to British and Irish Printed Books 1600–2004* under 1841 as “recorded, but no copy traced.” There is no printed publication date, but on page 85 of the volume, we find a section on “Roman Coins Found at Exeter, 1841,” suggesting that 1841 is the earliest year in which this could have been published. Which is all very fine except that the title page of another copy we have handled bears an ownership signature that is clearly dated 1839. Manville reaffirmed in his 2009 *Biographical Dictionary of British and Irish Numismatics* that this book was “reported but no copy traced.” Copies have sold for nearly \$2000 at auction.

London, 24–25 May 1889. 8vo, original printed paper covers. 32 pages; 277 lots; 4 lithographic plates, 2 of them folding. Covers spotted; very good. **\$100**

The introduction to the well-catalogued Langdon sale reads in part, "To those who will have the opportunity of personally inspecting this beautiful little Collection, nothing need be said in its praise; but for the information of distant Collectors, it becomes desirable to state that with few exceptions, the whole of the following coins are choice specimens in very fine condition. Each coin in its class has evidently been selected for its beauty or perfection, with an unusual degree of numismatic skill and knowledge. There is not an objectionable or dubious coin in the Collection." The Warne catalogue is very scarce, and is notable for British issues (lots 72–143 comprise Warne's collection of the coins of Carausius and Allectus). Ex L.D. & I.P. Library.

The Whittall catalogue was composed by Augustus Langdon, who appends a postscript in which he describes the circumstances under which a few lots catalogued for the sale were withdrawn as false and others moved to different geographical headings. The "Subhi Bey" catalogue was that of the collection of Abdullatif Suphi Pasha (c. 1818–1886). Manville & Robertson 1862-14, 1863-11, 1867-10, 1868-2, and 1873-10. Ex L.D. & I.P. Library.

Both parts of this exceptional collection of Greek coins, along with the sale devoted to Montagu's British medals, bound with letters by the cataloguer, Herbert A. Grueber. A remarkably accomplished British numismatist, Montagu came late to the series, purchasing his first ancient Greek coin in 1889. In 1893, he acquired the entire stock of the Paris dealer, M. Hoffmann, and from then to the time of sale, his holdings rapidly multiplied. These two sales brought £11876.16.0, an amazing sum at the time. The preface to the first part notes that "Since the dispersion of the Northwick cabinet in 1859, no collection of Greek coins so remarkable for their beauty, condition and numismatic importance, as that formed by Mr. Montagu has been offered by public auction in this country." Clain-Stefanelli 4980. Daehn 1367. Grierson 285. Spring 765 and 766 [both also listed under "Most important sales of ancient Greek coins"]. The final sale features Montagu's magnificent, well-catalogued collection of British historical medals, one of the most important ever formed. Clain-Stefanelli 14707. Grierson 315. Manville & Robertson page 180. Ex C.D. Davy, with his bookplate; ex L.D. * I.P. Library.

The Rothschild Collection, Priced & Named

199 Sotheby, Wilkinson & Hodge. CATALOGUE OF THE COLLECTION OF GREEK COINS IN GOLD, SILVER, ELECTRUM AND BRONZE OF A LATE COLLECTOR. MANY SELECTED FROM THE FOLLOWING WELL-KNOWN COLLECTIONS: WIGAN, BOMPOIS, DE QUELEN, COMTE DE DUCHASTEL, BILLOIN, CARFRAE, THE EARL OF ASHBURNHAM, SIR EDWARD BUNBURY, MONTAGU, &C. London, 28–31 May 1900. 4to, contemporary brown half morocco, with marbled sides; spine with five raised bands, lettered in gilt. (2), 67, (1) pages; 518 lots; 10 very fine autotype plates of coins. Hand-priced throughout with buyers' names recorded. Binding rubbed and worn, especially at spine, with front joint weak; very good. **\$300**

The Rothschild collection, an exceptionally fine one. This example of the catalogue advances, through its careful recording of buyers, the pedigree chain to the next generation of collectors, i.e., Seltman, O'Hagan, Ready, Huth, and others whose names are little known today, along with the principal dealers of the day: Spink, Rollin, Chapman, Egger, Hamburger, Sambon, Merzbacher et al.

Crown 4to, contemporary green cloth-backed mottled boards; spine lettered in gilt; decorative endpapers. Binding a bit worn; very good or better. **\$150**

The second Carfrae sale included his Roman bronze coins, the Greek coins having been sold in 1894, and the tinted plates are exceptional: Grierson 281, Spring 780. The Bain catalogue is genuinely rare. Its small size belies the quality of the collection, with the 57 lots bringing over £710. Spring 781. Ex L.D. & I.P. Library.

ETC. ETC., DÉLAISSÉE PAR FEU MONSIEUR LE COMTE D'HANE DE STEEN-HUYSE ET DE LEEUWERGHEM... Ghent: 19 juin 1843 et jours suivants. 8vo, contemporary blue paper covers; handwritten spine label. (2), ii, 119, (1) pages, interleaved with blank pages which have been ruled by hand and carefully annotated giving the price realized and buyer of each lot; 3325 + 168 lots. Paper spine worn, with signatures starting to separate; otherwise very good. **\$200**

A very rare catalogue, perhaps the only copy we have handled. The cataloguer is not identified. The collection is massive and wide-ranging—after nearly 500 lots of ancient Roman coins, the catalogue is devoted to a comprehensive collection of primarily European coins of the early modern era, with some medieval content as well. This is most likely the auctioneer's copy, as the buyers are carefully recorded and the interleaving was obviously prepared in advance of the sale. Most interesting.

All Three Folio Volumes of Visconti & Mongez's Incomparable Greek Iconography

Including a Vast Array of Exquisitely Engraved Illustrations of Ancient Coins

223 Visconti, Ennio Q. *ICONOGRAPHIE ANCIENNE OU RECUEIL DES PORTRAITS AUTHENTIQUES DES EMPEREURS, ROIS ET HOMMES ILLUSTRES DE L'ANTIQUITÉ. TOME PREMIER. ICONOGRAPHIE GRECQUE. PREMIÈRE PARTIE. HOMMES ILLUSTRES. SECONDE PARTIE. ROIS. SUITE DE LA SECONDE PARTIE.* Paris: de l'Imprimerie de P. Didot l'Aîné. 1808 [frontispiece engraving dated 1816]. Three volumes, complete. Large folio [56 by 44 cm], later matching red quarter morocco with red sides; spines with five raised bands, ruled and decorated in gilt with a crowned lion rampant in four of the resulting compartments; two blue morocco spine labels per volume, lettered in gilt. *Part I*: (2), xxv (1), (2), iii (i), 182 pages; *Part II*: (2), vii, (1), (185)–364 pages; *Part III*: (2), 365–658 pages; large, unsigned, finely engraved historiated frontispiece device dated 1816 and depicting Lollius Alcamenes on main title; 58 finely engraved plates [numbered 1–57, 39*]. Sides lightly spotted; intermittent spotting and foxing, occasionally heavy; pages supple. An attractive set, generally near fine. **\$5000**

A magnificent production, being the Greek portion of what is arguably the most imposing set of numismatically illustrated books ever published. (Four additional volumes not here present were published between 1817 and 1826 on Roman iconography.) Ennio Quirino Visconti (1751–1818), was an internationally recognized classical scholar and draughtsman. As a child he was schooled by his father, Giovan Battista, utilizing the family collection of ancient coins and the sculptures and ancient coins in the Museo Pio Clementino, where Giovan served as its first director. In 1798 Ennio became one of the five consuls of the newly created Roman Republic; a year later, he was summoned to Paris as Conservateur des Antiques in the Louvre. As such he was also Director of the Musée Napoleon, where he conceived the imperial project of a classified iconography of the ancient world—a monumental lexicon of classical antiquity.

The resulting volumes, printed by Didot in his striking new type, are but a fragment of the iconography as it was intended. Visconti himself died in 1818, and the Roman volumes were prepared under Chevalier Antoine Mongez (1747–1835). The work as planned was never completed, but even within this small preliminary field the range is enormous, covering every known, or suspected, king whose portrait has survived, and a variety of

portraits of famous men, backed by contemporary references from classical literature. Some of the finest engravers of the day contributed to this work, and many of the plates partly or entirely feature ancient coins. While the outstanding quality of the engravings is perhaps most striking at first glance, the volumes evince a very high level of scholarship as well.

John Drury (David Edmunds) has written of that "the quality of the typography, printing and paper, the excellence of the plates, and the high level of scholarship, go to make this not simply a grand early 19th century coffee-table book, but a highly important contribution to its subjects and worthy a place in every major library of numismatics, classics or the arts." Babelon 130: "E. Quirino Visconti and A. Mongez ... drew on numismatics as a source for their glorious work on the iconography of the ancients." Brunet 30412: "Ces deux magnifiques iconographies, qui font suite l'une à l'autre, ont été imprimées aux frais de l'Etat, et distribuées en présents." Cicognara 2717 and 3917. Graesse 370. Hennin 69. Leitzmann 148.

Sinkankas 6917: "A detailed treatise on the engraved gems and their engravers during late Republican and Augustan periods of Rome as illustrated by examples shown upon the excellent plates. The introduction discusses Hellenistic cameos with facial portraiture then passes into a history of the gem engraving art as it flourished in Rome with much on the gem engravers themselves and the works attributed to them." Important. Sinkankas 6918 and 6921: "First volume to catalog engraved cylinder & stamp seals in the Museum of Art and History, Geneva, Switzerland. The Rare Ars Classica Sale 9 of Swiss Coins

233 [Ars Classica IX] Naville et Cie. IX. MÜNZEN UND MEDAILLEN DER SCHWEIZ. MONNAIES ET MÉDAILLES SUISSES. MONETE E MEDAGLIE SVIZZERE AUS DEM BESITZE ZWEIER BEKANNTER AMATEURE. Luzern, 21. Juni 1924. 4to, later brown quarter calf; spine with three raised bands; hand-lettered spine label; original printed card covers bound in. (4), 31, (1) pages; 399 lots; 18 fine plates. Neatly hand-priced in ink. Typewritten letter, signed, from Hirsch laid in. Fine. **\$300**

The rarely encountered Sale IX from the Ars Classica firm, offered an important collection of Swiss coins. The Ars Classica series was catalogued and conducted by Dr. Jacob Hirsch (1874–1955) after he moved from Munich to Geneva following the First World War. Lucien Naville (1880–1956) assisted Hirsch in establishing his new business in Switzerland, and the early sales were conducted in his name; once Hirsch gained Swiss citizenship, however, he was able to run the business himself under the aegis of Ars Classica. The firm's catalogues are renowned for their ancient coins, with this one exception. We have not handled a solo copy (offered outside of a complete set) in many years. The letter accompanying this catalogue notes that "Preisliste ist keine erschienen" ("No price list has been published"), which makes this hand-priced copy all the more notable. An extraordinary copy of the modern combined reprint of Breton's two major works. Leo Meloche was a tireless collector of Canadian coins, medals, and tokens (among other things), and his extensive annotations in this copy are of considerable interest. Writing in French, Meloche records considerable additional information in this copy, with some parts of the second volume featuring far more commentary by Meloche than is originally provided by Breton. Rare: the first copy we have offered in years. Charvet is best remembered today for his 1862 *Description de monnaies françaises, royales et féodales*, a controversial work in which the author publicly ridiculed the work of Rollin & Feuardent in their catalogue of the J. Rousseau collection to such a degree that he was successfully sued for defamation in 1863 and copies of the book were ordered destroyed.

Covers and binding worn [would benefit from binding]; contents untrimmed and very good or better. **\$200**

A very rare paper by Albert des Méloizes, in which he first discussed the moulds from which Jean-Baptiste Nini produced his terra cotta medallions. To quote Richard Margolis, "In this important paper, presented in 1868, the Marquis Albert des Méloizes describes at some length, and for the first time, the moulds from which Nini cast his medallions, insisting that the original moulds were made of terra cotta, rather than metal, which Villers had claimed. As part of his presentation he displayed (but didn't illustrate in his paper), a series of medallions in patinated plaster which had been cast from these moulds. A copy of this rare paper was examined in the library of the Musée Monétaire in Paris." The actual title of Des Méloizes's contribution to the meeting is in the form of a question: "Existe-t-il des moules en terre, des médaillons si justement appréciés de Nini? Doit-on les considérer comme des moules originiaux?" We have used the more descriptive title used by Margolis when referring to it. Richard Margolis replied upon a photocopy of this paper when writing his *Benjamin Franklin in Terra Cotta*. As much as he tried, he never located an original copy.

The first two catalogues are scarce. An Agent de Manufactures or Manufacturers Agent, Gravel formed a collection of Canadian coins and medals which, according to Fred Bowman, "was considered the most important on the continent at that time." We have encountered at least one copy of the first catalogue with a December 1935-dated cover letter. The Morgenthau catalogue is Adams 22. Ex Barry Tayman Library.

It remains a key reference on British medals issued during this period relating to America. Clain-Stefanelli 14691*. Grierson 165 and 264: "L'ouvrage le plus important." Manville 631. An Unusual Copy of the Reprint Plates

Folio, later black leatherette and red cloth, gilt. Preliminaries; 183 plates, each with descriptive text; indexes. Trimming a bit tight at top margin (see comments); handwritten letter from Quarterman publisher Al Hoch to Barry Tayman bound in. Near fine. **\$100**

The most comprehensive visual record of British medals from the time of Edward III up to 1760, excellently republished by Alfred D. Hoch of Quarterman in user-friendly format. This copy was sent to Barry Tayman by Al Hoch in unbound signatures, with a cover letter noting that it was used by the printer "to set up their printing operation." It is overtrimmed along the top margin, but only slightly, not interfering with the images. Clain-Stefanelli 14691*. Grierson 165 and 264. Manville 631. Ex Barry Tayman Library.

Complete Hardcover Set of Hoare Catalogues

273 Hoare Auctions, Jeffrey. **NUMISMATIC AND MILITARY AUCTION CATALOGUES.** Toronto and London, Ontario, 1986–2007. Seventy-three auction catalogues bound in 22 volumes, as follows: Numismatic Sales 1–5, 6, 7–10, 11–13, 14–17, 22–25, 26–28, 29–31, and 32 in nine volumes, original maroon or red cloth, gilt; Mixed volume (as issued) consisting of Military Sales 17–18, Numismatic Sale 32, and Combined Numismatic/Military Sales 50–51 in one volume, original maroon cloth, gilt; Numismatic/Military Sales 52–54, 55–57, 58–60, 61–63, 64–67, 68–71, 72–75, 76–78, 79–81, 82–84, 85–87, and 88–91 in twelve volumes, original maroon cloth, gilt. All bound volumes include the prices realized lists, where issued; fairly early on, the firm adopted the practice of printing the prices realized for the previous sale in the following catalogue. All quarto except for the first volume (a small octavo); all in the original bindings. Fine. **\$600**

Rarely encountered Special Hardcover Editions for these important sales, most important for Canadian numismatic and North American military material. These hardcover editions were issued in very limited quantities; a couple of the early ones include limitation notices from 40 to 90 copies (the later for the important Sale 6, which was advertised for sale). Hoare originally numbered his militaria sales and his numismatic sales separately, and had conducted 18 militaria sales and 32 numismatic sales when he decided to combine the series in 1995 (after which point sales often included a bit of both categories). However, the combined series was erroneously begun with Sale 50 (skipping 33–49 entirely), when fifty sales had already been conducted. For this reason, the numbering was always subsequently off by one. Ex Barry Tayman Library.

18th-century Algerian Silver Salver

275 [Islamic Art]. **SILVER SALVAR, MADE IN ALGIERS AND DATED AH 1170 (AD 1756–1757).** Hand-crafted rimmed platter of hammered and rolled silver, featuring a richly detailed foliate design in eight curvilinear segments surrounding a central crescent with interior flower. Feet secured by additional floral silver lozenges. Silversmith's marks identify it as made in Algiers in AH 1170. Measures 11.25 inches [28.7 cm] in diameter with four feet, each extending an additional inch [2.5 cm] for a total size of 13.25 inches [33.7 cm] across. Approximate weight 22 avoirdupois ounces [20 troy ounces]. Silver fineness uncertain, but assumed to be coin silver [feet possibly made of coins]. Well-preserved and most attractive. **\$750**

Made during the reign of the Ottoman Sultan Osman III, this silver platter was one of the prized possessions of William Holberton, who wrote on Ottoman coins under the name of Jem Sultan. His collection, one of the finest ever assembled of Ottoman and Turkish coins, was published in 1977 as *Coins of the Ottoman Empire and the Turkish Republic: A Detailed Catalogue of the Jem Sultan Collection* and is now part of the collections of the American Numismatic Society. Kingsford on the Vexator Tokens

277 Kingsford, William. *A CANADIAN POLITICAL COIN. A MONOGRAPH.* Ottawa: E.A. Perry, 1874. 8vo, original printed paper covers. 24 pages; lithographic frontispiece depicting both sides of a Vexator token. Some foxing; else near fine. **\$100**

A scarce monograph that according to Warren Baker "is the first pamphlet published in Canada on a numismatic subject." It combines a two-part article by Kingsford (1819–1898) published in the July and October 1873 issues of the *Canadian Antiquarian and Numismatic Journal*. The Vexator coppers have intrigued numismatists for over 150 years, and Kingsford's interpretation focuses on their apparent connection to the government of Sir James Craig and the controversies attending it. Ex Barry Tayman Library.

The first edition of this essential work on Napoleonic medals, written while the exiled ruler was still alive. Covering 141 medals, Laskey describes each in some detail and then gives a historical overview of the events being commemorated. The frontispiece is a striking engraving by B.-J.-F. Roger based on a painting by Jean Desire Muneret. Engel & Serrure 3734. Leitzmann 73. Modesti 1715: "Edito privatamente, quasi a celebrazione del nemico appena battuto ed esiliato, questo libro offre un'ampia panora mica delle medaglie napoleoniche..."

Lees's monograph originally appeared in the January 1917 issue of *The Numismatist*. Photographic plates were produced on a very limited basis for distribution with an offprint of that article. The present monograph is a 1961 revision produced by Walter Holmes. The photographs here present are likely later prints, though they do not appear to be of recent origin. Ex Barry Tayman Library.

Tall 8vo, contemporary or slightly later brown half morocco with pebbled sides; spine with five raised bands, ruled, lettered in gilt; original printed paper covers of *Supplement* and McLachlan review bound in. **\$500**

A fascinating copy of the best edition of this classic work, bound with the rare supplement and with the first Canadian numismatic bibliography. The main work is Copy No. 519. The survival rate for this publication must be abysmal, with the paper used being very acidic and brittle. It is very important, nonetheless, cataloguing many tokens and medals ignored by Breton and other writers. CNB page 39, 155 & 488 (main work and supplement). The Montreal Gazette publication is the first work on the topic. Generally attributed to McLachlan himself, who undoubtedly had something to do with it. Beginning with Henry Christmas's 1862 *Numismatic Chronicle* article, discusses Sandham, Kingsford, Leroux, Neumann, Zay and much else. Scarce. Bowman 13. CNB page 46. Ex R.L. Quite rare. Item number 135, depicted on one of the plates, comprises "Un portrait du Franklin portant la coiffure de fourrure connue par les portraits en terre cuite de Nini." Sinkankas 3909: "Handsome work, made from high quality materials, tastefully designed and illustrated... The prefatory matter ... discusses the art of the gem engraver, the history of the art, various engravers... and several large gem collections. The career of Guay is given in considerable detail along with remarks on his gems and his relation to Pompadour. This portion occupies pages up to 60... the main body of text ... consists of essays on prints made by Pompadour from Guay gems... Leturcq mentions that not all works attributed to Pompadour ... are her own inasmuch as only five engraved gems can be certainly attributed to her hand. More important are her engravings of the Guay gems, some 52 to be precise, which are reproduced on the plates... Among other plates in this interesting work is the famous plate reproduced from Mariette showing a gem engraver at work, also a facsimile of Guay's handwriting, and a pair of sepia-tinted plates giving facsimiles of Boucher designs." Marvin on Masonic Medals

Crown 4to, original printed paper covers. 145–329, (1) pages; text illustration; 5 lithographic plates, numbered XIII–XVII, depicting medals; 1 fine chromolithograph depicting the Arms of the Freemasons, laid in, presumably as issued. Front printed paper cover detached and stained, but present; rear lacking. First text page stained. Spine separating into signatures. Good or better. [with] Marvin, W.T.R. **MASONIC MEDALS. SUPPLEMENT**. No place of publication [prob. Boston], undated [c. 1912]. Crown 4to, unsewn, unbound signatures. Drop title; 5–252 pages [lacking 253–257 and following blanks]; 1 halftone plate. Very good. Housed together in a custom-made clamshell box [blue and tan linen with black leather spine labels, gilt].

\$200

A very rare and bibliographically complex book, still important as a foundational reference in this area. Though 160 copies were printed of the main work, copies rarely appear on the market, perhaps because most appear to have been distributed through Masonic channels. Lyman Low claimed that "twenty copies perished by fire" and a postcard in the library of the Grand Lodge of Massachusetts confirms that many copies were indeed destroyed in a fire in Marvin's office. It has never been reprinted. Marvin's *Supplement* is also very rare, and nearly every copy that has been offered at auction has been (as is this copy) incomplete. It was lacking from both the Champa and Bass library sales, and the example in the American Numismatic Society Library ends at page 254. Indeed, the most complete copy seen by us stops mid-way through the description of medal MCCLXXVII. Both the main work and the *Supplement* reprint material published by Marvin in the *American Journal of Numismatics* over a period of some 35 years. It is clear that some editing and correcting was made between the periodical form and its publication in book form. The book was printed in four parts, and probably distributed in two (I–II and III–IV). The last time a complete set was offered at auction was in Kolbe Sale 100 (ex the John J. Ford, Jr. library sale), where it brought \$2400. Clain-Stefanelli 14218. See Davis 658.

Interleaved & Annotated Copy

287 McLachlan, Robert Wallace. **CANADIAN COMMUNION TOKENS. A CATALOGUE OF METAL SACRAMENTAL TICKETS USED IN THE DIFFERENT PRESBYTERIAN CHURCHES.** Montreal, 1891. 8vo, contemporary dark green half morocco; spine with five raised bands, ruled and lettered in gilt; original printed paper covers bound in. (4), 62, (2) pages, interleaved with ruled paper on which extensive annotations have been recorded. Two handwritten notes by Herbert L. Doane, describing newly discovered communion tokens, laid into envelope affixed to front pastedown. Very good or so. **\$200**

A fascinating copy of the combined 1891 offprint of McLachlan's significant article, published over the course of four issues of the *Canadian Antiquarian and Numismatic Journal* in 1889 and 1890. Combines historical background information with a detailed listing. The annotations are possibly by Herbert Doane, but are equally possibly by Robie L. Reid, who was an early owner of this copy. In addition to tracking prices and recording the depth of an advanced collection, they include more substantive material, including descriptions of new varieties and historical data. A few notes are tipped in, including some rubbings. CNB, page 304: "this was the first catalogue of the sacramental tokens issued by Presbyterian Churches in Canada. This text remained the standard reference work for many years." Ex Robie L. Reid Library, with his stamp ex Charles Ricard Library, with his bookplate; ex Barry Tayman Library, with his stamp.

Untrimmed. Near fine. **\$750**

A well-preserved copy of this scarce and important work, based on the author's own collection. Covers medals for North, Central and South America. 492 medals are carefully described, with historical notes. The present works are highly specialized and demonstrate the state of the science at the time. Binding with minor scuffs and discolorations, but sound. Small tear to large folding chart. Very good or better. **\$250**

The first edition of a very scarce antiquarian work by this well-known Irish numismatist, privately printed in small numbers for distribution to the friends of the author. Inscribed and signed by the author, with authorial corrections to the text in ink. Sainthill (1787–1869) was a lawyer in Cork, Ireland, and was a close friend of numismatists Aquilla Smith and John Lindsay. Not numismatic, this work focuses on the life of Katherine FitzGerald, Countess of Desmond, who became famous for her longevity. Now thought to have lived from about 1504 to 1604, she was thought by some to have been as much as 140 years old when she died. She lived in Inchiquin Castle, to which she had been granted a life tenancy by her husband, the Earl of Desmond. An interesting account by a most engaging author.

An Original Copy of Sandham

303 Sandham, Alfred. **COINS, TOKENS AND MEDALS OF THE DOMINION OF CANADA.** Montreal: Daniel Rose, 1869. Small 8vo, contemporary flexible brown grained cloth. (6), 72, (2) pages; lithographic frontispiece; text figures; 8 lithographic plates. Minor annotations in pencil. Spine worn; some tape repairs to hinges. Early owner's inkstamp throughout. Good or better. **\$200**

The first substantial work on Canadian coins and tokens. Very scarce. An early member of the Montreal Numismatic Society, Sandham initiated publication of the *Canadian Antiquarian and Numismatic Journal* in 1872 and served as its editor for several years. In many ways, Sandham's work resembles that of Crosby for the United States. Not only is it foundational and of continued importance, but even its genesis was similar. Warren Baker told the story well in his November 2014 list (item 46): "This work was intended to be that of a committee of the Numismatic & Antiquarian Society of Montreal, formed to replace the work that had been started in 1863, but abandoned due mostly to the death of James Rattray. Finding it difficult to get members together in support of the new project, particularly as a result of Bronsdon's withdrawal, Sandham determined on a self-publication using the Society's printer, Daniel Rose, a dedicated numismatist himself. ... The book was sold by subscription, five hundred copies having been printed, a rather large production at that time, and perhaps even for today considering the specialization of the subject. Ninety-three subscribers accounted for 110 copies of the book, and there were thirty-seven complimentary copies. Five dealers were consigned seventy-one copies, of which Mason & Co. of Philadelphia had sixteen. Dawson Brothers of Montreal were given eighteen copies to sell. The work is still necessary for any collector of the Canadian colonial coin series, and for anyone interested in the first completed numismatic catalogue published in Canada." Baker, *First Twelve Years*. CNB pages 42, 157, and 498–99. Clain-Stefanelli 8548. Grierson 219. Ex Coleman P. Hyman Library, with his inkstamp throughout; ex Armand Champa Library, with letter to Tayman included; ex Barry Tayman Library.

The scarce second collected edition of the Drapier's Letters, in a contemporary binding. Nelson pages 12 & 13: "Wood's coinage for Ireland never appears to have been popular, and... he is reported to have said 'that he would cram his brass down their (the Irish) throats in spite of them.' Shortly after this appeared the first of a series of seven letters, the author of which was Jonathan Swift, D.D., Dean of St. Patrick's, and since they were signed M.B. Drapier, became known as Drapier's letters... The first letter made its appearance April, 1724, and produced a tremendous sensation... By such means as this was the prospect of a successful future for this coinage done away with...." The refusal to accept William Wood's Hibernia coinage in Ireland led to their export to the American colonies, where they appear to have circulated readily. The first collected edition was published in Dublin in 1725, and is rare. This edition continues to present the author anonymously. Dekesel S578. Goldsmith 6798. Kress 3901. Rare Work on Currency of World War I

314 White, Benjamin. **THE CURRENCY OF THE GREAT WAR.** London: Waterlow & Sons, 1921. 8vo, later gray cloth lettered in white. xiv, (2), 104 pages; illustrated. Ex-library markings; good or better. **\$100**

The first copy we have handled since 1989. White's study covers a wide range of wartime coins and (mostly) paper money, with chapters devoted to France, Belgium, Russia, and Great Britain, and to Allied, Neutral and Enemy nations in general. In his introduction, he writes: "The illustrations are taken from a collection in the writer's possession, for most of which he is indebted to the kindness of friends who took an interest in what is at present an uncommon line of research. No attempt has been made to make the survey complete, the range is far too wide for such a modest work as this. Enough, however, is presented to give the reader some idea of the way in which the Great World Crisis upheaved currency conventions, in like manner as it dealt radically with almost every other department of human activity." Ex Treasury Department Library, with their deaccession stamp; ex Barry Tayman Library.

Deluxe Adams on California Gold

317 Adams, Edgar H. *PRIVATE GOLD COINAGE OF CALIFORNIA, 1849-55, ITS HISTORY AND ITS ISSUES*. Brooklyn: Reprinted from the *American Journal of Numismatics*, 1913. 4to, original dark blue half morocco, gilt, with blue cloth sides; spine with five raised bands, ruled, lettered and decorated in gilt; decorative endpapers. xxviii, 110 pages, with blank leaves between sections; 4 halftone portrait plates; 7 halftone plates of coins. Slight rubbing to spine; old label on upper left corner. Near fine. **\$500**

A well-preserved copy of the Special Leatherbound Edition, far superior to most copies seen. The best edition of the first comprehensive work on the numismatic history of the California Gold Rush. Edgar Adams (1868-1940) dominated American numismatic research in the first quarter of the twentieth century. His other landmark works on patterns and storecards and his famous series of illustrated notebooks on various series, many of which reside in the library of the American Numismatic Society, eloquently attest to his virtuosity. In his obituary, Farran Zerbe noted: "In the passing of Edgar H. Adams ... numismatics loses a grand character, one who starred in its literature for many years." Only a small number of special leatherbound copies of *Private Gold Coinage of California* appear to have been made from "the first complete edition of one hundred copies," the great majority of which were apparently bound in crimson cloth. Several versions of the book were published, with introductions of 16, 20 or 24 pages (this example has the 24-page version). Clain-Stefanelli 12465. Ex Charles M. Deluxe Edition *Comitia Americana* with Gates Plate

321 Adams, John W. and Anne E. Bentley. *COMITIA AMERICANA AND RELATED MEDALS: UNDERAPPRECIATED MONUMENTS TO OUR HERITAGE—A LEAF BOOK*. Crestline: George Frederick Kolbe, 2007. 8vo, light brown full morocco, leather spine label, gilt, cloth clamshell box. 351, (1) pages; 57 color plates and an original engraving for J.F. Loubat's *The Medallic History of the United States*. Fine. **\$900**

Perhaps the most luxurious deluxe edition of a numismatic book published in recent years. Limited to 60 copies printed by letterpress by Henry Morris, of Bird & Bull Press. A magnificent production. Citing from the preface: "The regular edition of *Comitia Americana and Related Medals* has been shaped for the scholar and the collector... The special edition at hand is intended to serve a different purpose. Here, the authors' objective is to place the reader in a closer relationship with the historical events that are described. To this end, the text of this edition has been prepared by the same letterpress technology in use in the late eighteenth century. The two centuries that lie between the American Revolution and the present day are neatly bridged by the inclusion of a leaf from a book published in 1878. Joseph Florimond Loubat's *Medallic History of the United States* is the spiritual ancestor of the present volume. Elegantly printed on sumptuous paper, Loubat's magnum opus sets a standard of scholarly excellence that has not been matched and to which, immodestly, we aspire. Between the timeless craftsmanship of Bird & Bull Press and the actual leaf from Loubat, the authors seek to reinforce the message that our early medals were intended to convey. It is a noble message. We hope that this special edition will prove a worthy carrier of important memories that comprise our national heritage." The leaf from Loubat in this copy of the deluxe edition features the *Comitia Americana* medal awarded to Horatio Gates.

An attractively bound set of this extraordinarily important U.S. journal. Even today, the *AJN* remains an indispensable source of numismatic information and lore. On March 8, 1866, resident member Joseph N.T. Leveck proposed the establishment by the American Numismatic and Archaeological Society of a journal of "numismatic and archaeological intelligence." His suggestion was quickly adopted and the inaugural issue appeared in late May of the same year. Many of America's greatest contributions to numismatic scholarship first appeared in the pages of this most important publication. Crosby's classic works on large cents, parts of his *Early Coins of America*, Frey's *Dictionary of Numismatic Names*, Edgar Adams's extensive work on California pioneer gold coins and, later on, the scholarly, still indispensable studies on ancient Greek coins by Newell, Baldwin Brett, and others are but a small sampling. For American researchers, the *Journal* is interesting for the reminiscences and other fascinating tidbits of information to be found in the earlier volumes, much of which is little known today except among the few fortunate to possess a set of this remarkable storehouse of knowledge. Later volumes include a number of more intensive articles on American subjects, including Adams on private and territorial gold and Miller and Ryder on state coppers. "The history of the *Journal*, if it could be given in detail, would be a history of American numismatics." — Volume XLI, 1907, page 105. This set was uniformly bound by Alan Grace and is among the most attractive sets we've handled. Clain-Stefanelli 350. Grierson 16. Kolbe 810. Sigler 74. Ex Barry Tayman Library.

Nearly Complete Run of Early ANS Proceedings

325 [American Numismatic Society] American Numismatic & Archaeological Society; American Numismatic Society. PROCEEDINGS OF THE AMERICAN NUMISMATIC AND ARCHÆOLOGICAL SOCIETY OF NEW YORK... / PROCEEDINGS OF THE AMERICAN NUMISMATIC SOCIETY... New York, 1878–1917, lacking only two numbers for completion. Bound in three volumes, as follows: Volume I: Nos. 20–38 (1878–1896), plus the 1878 *Constitution & By-Laws*; Volume II: Nos. 39–48 (1897–1906); and Volume III: Nos. 49–52, 54–55, and 57–59 (1907–1910, 1912–1913, and 1915–1917). 4to, later matching brown cloth, gilt; original printed paper or card covers generally bound in. The contents of the third volume have been removed and laid in (see comments). Generally very good or better, with some covers loose or chipped. **\$750**

An underrated source of numismatic information, notable for specialized numismatic monographs, highlighted perhaps by Zabriske's classic work on Lincoln medals, which appeared in the 1901 issue. The *Proceedings* are also important for their numismatic book reviews and obituaries of famous American numismatists, the latter frequently including information not readily obtained elsewhere. Before 1878, the *Proceedings* were printed in the *American Journal of Numismatics*; in 1924, 1925 and 1927–1933, the *Proceedings* were published in *The Numismatist*. These early *Proceedings*, published for forty meetings of the Society (from the 20th to the 59th) are difficult to collect. They are far more scarce than volumes of the *American Journal of Numismatics*, suggesting that not all members received them. In addition, while the paper used for the text is generally acceptable, the paper used for many of the covers in this series was highly acidic and susceptible to chipping, contributing to substantial attrition over the years. The *Proceedings* for 1907 through 1917 are especially difficult to find as stand-alone volumes. A separate *Index* to the 1878–1916 *Proceedings*, including obituaries, may be found in the *American Journal of Numismatics Index*, published in volume 51 of that publication and also separately. Ex George Fuld (who acquired them from the ANS in the 1950s and bound them); ex Al Hoch (who removed them from their bindings with the intent to reprint them, which he never did); ex Armand Champa (note to Tayman laid in), who removed some issues, replaced others, and rebound the first two volumes; ex Barry Tayman Library.

1914 ANS Exhibition Catalogue

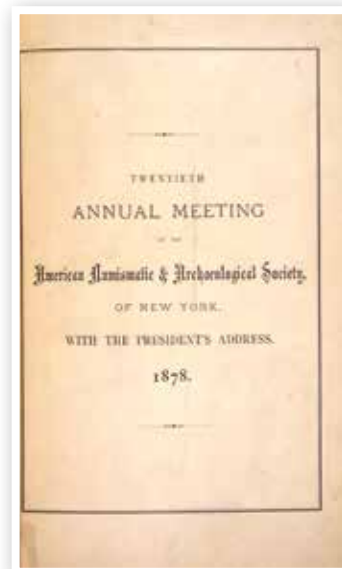

326 American Numismatic Society. EXHIBITION OF UNITED STATES AND COLONIAL COINS, JANUARY SEVENTEENTH TO FEBRUARY EIGHTEENTH, 1914. CATALOGUE. New York, 1914. 8vo, later maroon linen, gilt; original printed card covers bound in. vii, (1), 133, (1) pages; frontispiece; 39 plates of coins. Near fine. **\$150**

The important catalogue of this unparalleled exhibition of rare American coins from the finest contemporary collections. The illustrations are keyed to the various owners (Würtzbach, Hillyer Ryder, Granberg, Woodin, Ellsworth, French, etc.) making this work invaluable for tracing pedigrees. The exhibition was especially rich in American colonial coins, rare regular issues, patterns and private gold coins. Four 1804 silver dollars were depicted, belonging at the time to Newcomer, Granberg and Ellsworth (2). Würtzbach's colonials and Woodin's magnificent patterns are also extensively illustrated. In a 1926 list of books for sale, Gutttag Brothers termed this the "Million Dollar Book," high praise indeed considering coin values at the time. Clain-Stefanelli 11869. Ex Craig Smith Library.

A notable and wide-ranging collection. Anthon was one of the finest American numismatists of his day, and elected to take on the task of cataloguing his collection for sale himself. Unfortunately, while the sale was divided into five parts, Anthon died after the third had been sold, leaving it to other hands (Gaston Feuardent and George Cogan) to compile Parts IV and V. Beauchamp on Indian Ornaments

329 Beauchamp, William M. *METALLIC ORNAMENTS OF THE AMERICAN INDIANS.* Albany: University of the State of New York, 1903. 8vo, later red cloth, gilt. 120, (6) pages; 37 plates, depicting ornaments, Indian trade silver, the Red Jacket medal, Montreal medals, etc. Final index leaf torn, with missing text; very good or better. **\$150**

New York State Museum, *Bulletin* 73. The author cites Betts and Leroux and carried on an extensive correspondence with Robert W. McLachlan. In a substantial chapter entitled "Honorary Medals and Gorgets," Beauchamp, while expressing high regard for McLachlan, enumerates differences with him on several key points expressed in the latter's 1883 article entitled "The Montreal Indian Medal." McLachlan was quite favorably impressed with the Beauchamp work at hand, terming it a "most learned and exhaustive monograph." This, however, did not prevent him from strongly countering Beauchamp's arguments in a 1905 *American Journal of Numismatics* article with the same title as his 1883 work. A major work of considerable numismatic interest, *Metallic Ornaments* is quite scarce and is rarely offered in numismatic circles. Ex Barry Tayman Library.

The John A. Beck Collection

330 [Beck, John A.]. *ARCHIVAL RECORDS RELATING TO THE JOHN A. BECK COLLECTION.* Materials include: a thorough appraisal of the Beck collection conducted by Ray Byrne, consisting of 139 legal-size pages of reproduced typewritten inventory with valuations (accompanied by some carbon copy correspondence by Emerson Smith); a contemporary copy of Abner Kreisberg's 72-page typewritten inventory of the collection; safe deposit box inventories; perhaps 300 pages of photocopied numismatic correspondence between Beck and many of the most prominent collectors and dealers of his time, including B. Max Mehl, Henry Chapman, Edgar Adams, C.F. Clarke & Co., S.H. Chapman, Tom Elder, Alvin Fink, W.F. Greany, Theo Leon, Atlas Leve, Lyman H. Low, C. Johnson, Edward Mi-

chael, H.E. Morey, Jacob Roth, Spink & Son, Wayte Raymond, Charles Steigerwalt, Elmer Sears, Walter Webb, Howland Wood, Farran Zerbe and others (correspondence files also include photocopied printed matter); several photographic reproductions of numismatic-related correspondence to and from Beck; correspondence with Abner Kreisberg and with Stack's pertaining to the possible sale of the collection at auction; a copy of "John A. Beck, Collector," by Wayne Homren, with correspondence with Barbara Gregory at *The Numismatist*; and legal documentations regarding the Estate of Rhea E. Beck. Materials generally fine or nearly so. **\$300**

John A. Beck (1859–1924) was a major collector of United States coins, specializing in pioneer and territorial gold coins. His coin collection was kept off the market for half a century after his death, with it finally appearing in three sales conducted by the Abner Kreisberg Corporation in 1975–1977. Unfortunately, it is occasionally unclear whether a given coin in the sales belonged to Beck, as additional material was included by Kreisberg. The appraisals, which act also as inventories, have research potential in this regard. The appraisals conducted by Ray Byrne and Abner Kreisberg in 1971 were remarkably close: Byrne's appraisal came to \$708,969, while Kreisberg's totaled \$701,140—a difference of about 1%. Charles Wormser also evaluated the collection but does not appear to have formally appraised it. When the coins were sold a few years later, these appraisals were shown to be extremely conservative, with the results being far greater. A fascinating archive. Light bleed from docketing; else fine. **\$600**

Sir Francis Bernard, 1st Baronet (1712–1779) was a hardline Loyalist who became deeply unpopular with the elected assembly in Massachusetts. A very rare early and ingenious Bowers publication with the text in three-column reduced typescript, comprised of buying prices preceded by a bit of historical text for each of the various series. The only internal clue as to its actual source is the bulk rate mailing imprint: "Permit No. 15, Johnson City, N.Y." \$15,100 was offered for "Unc. or Proof" 1913 Liberty head nickels and \$12,500 for 1804 silver dollars in the same condition. In the "Information and Instructions" section, readers are advised to "REMEMBER: The Endwell Union Company, Inc. has thousands of satisfied catalog purchasers. Our reputation speaks for itself." Later on it is noted that "Your purchase price for this catalog will be refunded as soon as you sell us \$10 premium value (price we pay less face value of coins) worth of coins." According to Bowers, Endwell-Union was established for a brief time primarily as a vehicle to purchase 1955 double die cents. During the period, Bowers and/or Ruddy were the pre-eminent market-makers for this spectacular mint error.

Burdette Johnson's Archives Relating to the Brand Collection

339 [Brand, Virgil]. BURDETTE G. JOHNSON'S ARCHIVES OF MATERIAL RELATING TO COINS HANDLED BY HIM FROM THE ESTATE OF VIRGIL BRAND.

Two substantial boxes of carefully maintained inventory records of coins sold by Johnson on behalf of Armin Brand, brother of the great collector Virgil Brand, from 1935 until Armin's death in 1946. Also present are inventories of consignments made to Johnson by Armin's widow Frieda Grommes Brand, and by Armin's daughter Jane von Boecklin (later Jane Brand Allen), until Johnson's death in 1947. The archives further include reference inventories of material consigned by Armin Brand to Arthur B. Kelley. Much of the content inventoried consists of foreign and ancient coins, though substantial U.S. and American colonial coinage is also included. Some items are keyed to Virgil Brand's inventory ledgers now held by the American Numismatic Society. Occasional cover letters are also included. The main inventories here present include over 2000 pages, more than half of them from between 1935 and 1938. Condition varies, but the bulk of the material present is very good or better.

\$3000

Virgil M. Brand (1862–1926) was one of the greatest coin collectors of his day—or, indeed, of any day. He became interested in coins while in his twenties, and began buying widely. A successful businessman, he had the means to aggressively build his collection; this, coupled with a cosmopolitan attitude that brought him into contact with dealers from around the world, allowed him to form first-class collections not only of U.S. coins, but of ancient, medieval, and modern coins from around the world. Not content with purchasing individual coins, Brand bought entire collections when the opportunity presented itself, adding notable assemblages such as the Ferrari, Hall, and Würtzbach collections to his own. At the time of his death, Brand's collection held at least 350,000 coins. Were the collection intact today, it could be worth half a billion dollars or more. Despite the massive size of his estate, Virgil Brand died intestate. His brothers Horace and Armin inherited his property, but frequently disagreed about its distribution. The coins were appraised by both Burdette G. Johnson and Henry Chapman, with each brother receiving half the appraised value. The brothers were more interested in liquidating the coins than in retaining them. However, Armin's daughter Jane decided to keep some of those remaining when her father died and she inherited his portion—these coins were kept off the market until the 1980s when they were sold through Bowers & Merena Galleries and Sotheby's on behalf of her estate. The gradual disposition of Virgil Brand's massive collection—over the course of decades, through numerous intermediaries, on behalf of various parties, and in different places—has created much confusion for those attempting to trace the provenance of significant coins to this collection. Manuscript ledgers now housed at the American Numismatic Society provide a marvelous record of the collection from the perspective of the initial purchase of the coins, but tracking their subsequent dispersal has been a difficult task, one made easier by the present archive. Among the U.S. and pre-Federal American material here present are: the Hall collections of Lincoln exonumia, U.S. medals, coins and tokens, and Washingtoniana; and particularly extensive listings of colonials, large cents and quarters, among over a thousand pages of U.S. and pre-Federal American coins. It should be noted that while Johnson's 1936 papers included those concerning the Dr. Thomas Hall collection, those records were sold separately when the archives were disbursed in 2018, and they are present in this lot only in photocopy. The rest of the pages are original to the time period and are the copies made for and sent to B.G. Johnson for his use, and bear his annotations. While Johnson did not handle the entirety of Brand's enormous holdings, he did handle much of it, and Johnson's records comprise an exceptionally useful resource for establishing the pedigrees of many of Brand's coins. One of Five Copies

342 British Government. **A PROCLAMATION OF QUEEN ANNE FOR SETTling AND ASCERTAINING THE CURRENT RATES OF FOREIGN COINS IN AMERICA.** New York: Charles F. Heartman, 1916 A Reprint of the 1704 original printed by Charles Bill in London. Crown 4to, original black half morocco with marbled sides; spine with five raised bands, lettered in gilt; marbled endpapers. 16 pages printed on Japanese vellum; folded frontispiece facsimile of the original broadside proclamation. Front joint cracking; very good. **\$150**

No. 5 of 5 copies printed on Japanese vellum of a total edition of 50, signed and numbered by the publisher. The 1704 Proclamation of Queen Anne is discussed by Crosby on pages 117–122 of *The Early Coins of America*. Crosby discusses the reaction to the Proclamation in the Massachusetts Bay Colony, which struggled for ways to accommodate it while acknowledging the difficulty of so doing given the state of the coinage circulating in America. Philip Mossman also discusses the Proclamation (*Money of the American Colonies and Confederation*, pages 48–53), stating that “Since this regulation was initiated by the English Board of Trade the motive must be suspect. Rather than inspired by altruism toward the colonists, the authors were much more concerned that there be a stable currency to pay the English merchants.” He also notes that “Only Barbados and Maryland complied with the Proclamation, while the other colonies virtually ignored it. ... This insubordination promoted the Crown to reissue the provisions of the Proclamation as an Act of Parliament in 1707 with force of law.” Originals of the Proclamation are extremely rare. This is the only copy of this reprint we recall handling. No. 20 of *Heartman's Historical Series*.

The Ford “Reprint” of Browning

343 Browning, A.W. **THE EARLY QUARTER DOLLARS OF THE UNITED STATES 1796–1838. WITH A FEW REMARKS CONCERNING THEIR TYPES, VARIETIES AND RARITY. ILLUSTRATED ON EIGHT PHOTOGRAPHIC PLATES.** New York: Wayte Raymond, 1925 (& John J. Ford, Jr., 1950). 8vo, original crimson cloth, upper cover lettered in gilt. 36 pages; 8 fine linen-backed photographic plates. Fine. **\$300**

Reportedly, one of only 25 to 30 copies issued with the original 1925 text and new impressions of the plates commissioned in 1950 by John J. Ford, Jr., and taken from the original glass negatives. A number of plates in this edition are superior to those found in the original issue. In addition to the slightly larger format, this unidentified later issue may be identified by the flat spine (1925 edition rounded), sans serif lettering (1925 lettering with serifs) and text, which does not extend to the outer plate edges (1925 text and outer plate edges are flush). In a New Netherlands Coin Co. advertisement appearing in the February, 1951 issue of *The Numismatist*, following an announcement stating that “It is a pleasure to announce that Mr. John J. Ford, Jr. is now associated with our firm,” this issue of “The Rarest Standard Work on U.S. Coins” is offered for sale, described as follows: “This rare and popular book has sold as high as \$35.00, often in inferior condition. We have unearthed a limited number of copies, in new condition, which we can offer for the extremely low price of \$12.50 each... This is one of the best book buys ever.” Clain-Stefanelli 12269. Davis 149. Sigler 352. Ex Craig Smith Library.

348 Champa, Armand. *A PICTORIAL ALBUM OF THE INVASION OF LOUISVILLE AT THE HOME OF ARMAND AND KAY CHAMPA, HELD DURING THE ANNUAL A.N.A. CONVENTION JULY 23–24, 1988*. Louisville, 1988. 4to, original brown half morocco; front cover lettered in gilt; spine with five raised bands, lettered in gilt. Twenty-five clear plastic sheets, housing a limitation leaf, a printed invitation card, one 7.5 by 10 inch, and one hundred forty-three 3.5 by 5 inch color photographs, depicting attendees, books, the library, etc. Inscribed to Barry Tayman by Armand Champa. Inserted are, in addition: a list of attendees; two handwritten letters from Champa to Tayman; several additional photographs; and a photocopy of the prank telegram from S.H. and H. Chapman [Barry Tayman and George Kolbe], addressed to Champa demanding return of their property, delivered during the event. Fine. **\$400**

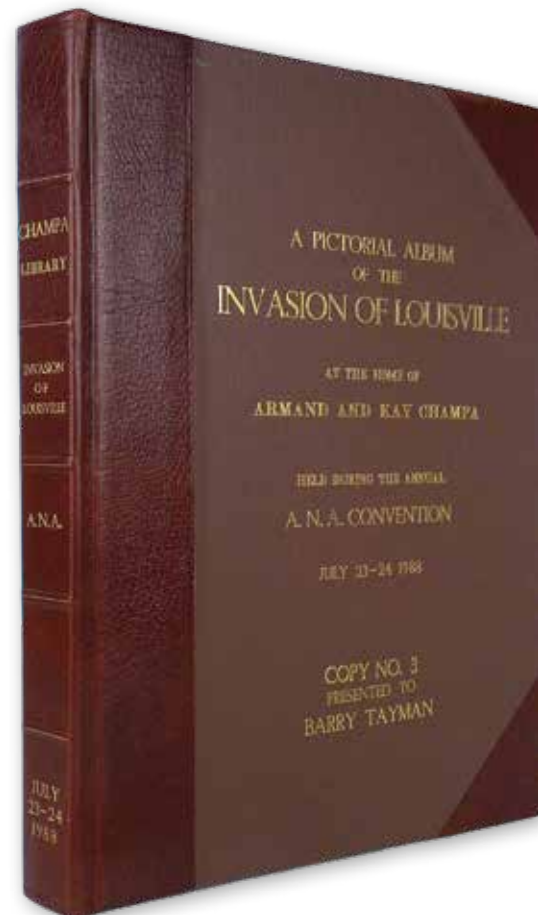

Copy No. 3 of 12 issued in this format. The album documents a visit by numismatic bibliophiles to the Armand Champa Library during the 1988 American Numismatic Association, held in nearby Cincinnati. Some forty-five bibliophiles attended, most of whom are depicted in a group photo taken at the dinner following the gathering to view the Champa Library. Nearly all of the attendees are also depicted on the smaller photographs, including John & Mary Bergman, John Burns, Del Bland, Remy & Avis Bourne, Armand & Kay Champa, Jack Collins, Charles Davis, John J. Ford, Jr., Martin Gengerke, Alan Grace, Gordon Frost, George Fuld, Wayne Homren, John Huffman, Frank & Laurese Katen, George Kolbe, Ken Lowe, Bill Murray, Eric P. Newman, Jesse Patrick, Jeff Peck, Jules Reiver, Scott Rubin, Michael Sullivan, Barry Tayman, Cal Wilson, Myron Xenos, and many more. To celebrate the occasion, Champa sent photo albums to those in attendance, with most receiving a white three-ring binder holding 83+ photographs and a few other items; twelve of those in attendance received more elaborate albums like this, bound in leather and with 143+ photographs. Two copies were produced in full leather, with 176+ photographs—these were for Champa himself and for John Bergman, who helped him organize the event. The content in each was "customized," with the number of photos varying somewhat. An evocative photographic record of a gala event. Ex Barry Tayman Library.

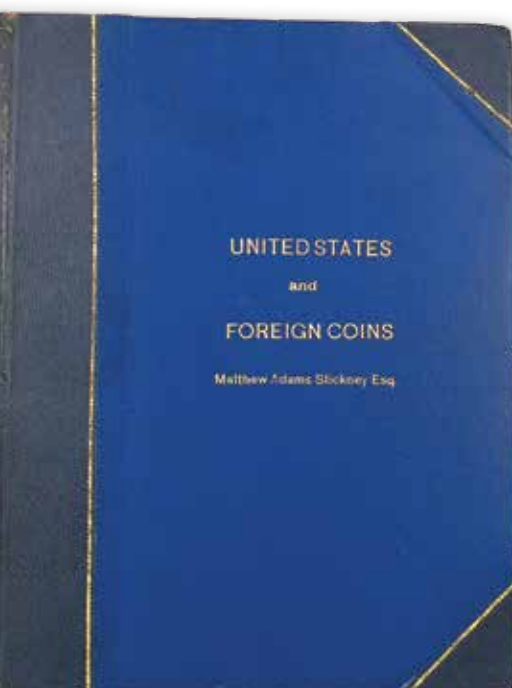

Landmark Bushnell Sale, Handsomely Bound

349 Chapman, S.H. & H. *CATALOGUE OF THE CELEBRATED AND VALUABLE COLLECTION OF AMERICAN COINS AND MEDALS OF THE LATE CHARLES I. BUSHNELL, ESQ. OF NEW YORK*. New York: Bangs, June 20–24, 1882. 4to, later red half morocco with marbled sides; spine with five raised bands, decorated in blind and ruled and lettered in gilt. 142, (2), 10, (2) pages; 3000 lots; 12 plates (10 reprints and 2 originals) bound in; *Supplement* and original printed prices realized list bound in. Fine or nearly so. **\$150**

Adams 9. One of the landmarks of American numismatic literature. The Bushnell collection was the stuff of fables, being well-known, yet little seen. After Bushnell's death in 1880, a number of prominent dealers attempted to obtain the collection, but it was the Chapman brothers who, to the surprise of many, made off with the prize. Two of the 12 plates bound at the end of this copy (Plates 2 and 12) are originals, with the rest being reprints. The *Supplement* also includes an original Plate 1. The Bushnell sale was the first large format auction catalogue issued by the Chapmans with plates. It established the brothers as the dominant force in American numismatics, a position they were to occupy both collectively and independently for the following half century. Ex Barry Tayman Library.

COMPRISING ONE OF THE GREATEST COLLECTIONS EVER SOLD IN THIS COUNTRY. UNIQUE COLONIAL AND STATE COINS, BRASHER'S 1787 NEW YORK DOUBLOON, 1815 HALF EAGLE, AND AN ORIGINAL 1804 DOLLAR. Philadelphia, June 25–29, 1907. 4to, contemporary blue half morocco, gilt; front cover lettered in gilt; spine ruled and lettered in gilt; marbled endpapers. ix, (1), 222, (10) pages; 3026 lots; engraved frontispiece portrait of Stickney; 20 fine photographic plates; original printed prices realized list bound in. Hand-priced in ink. Binding rubbed and a bit worn; very good or better. **\$1500**

Adams 3, with plates. Henry Chapman's first major solo production after the breakup of the partnership with Samuel Hudson Chapman the preceding year. While still graced by the magnificent photographic plates executed by his sibling, Henry catalogued the entire collection. The first three plates depict choice colonials; one plate illustrates Washingtonia; two plates depict rare patterns and a few historical medals; two plates illustrate United States gold coins; two plates depict silver dollars and two more illustrate the remaining silver series and Canadian and other rarities, mainly foreign; three plates depict the choice large cents, Canadian tokens and a few colonial rarities; one plate is devoted to half cents; two plates depict pioneer gold coins, an ancient Greek coin, English and European coins and several choice lower denomination United States gold coins; and one plate illustrates a silver Libertas Americana medal and choice European silver coins and medals. Henry notes in the preface: "To prepare this catalogue has been a labor of love, as I am greatly interested in our pursuit and expect to devote my life to it." True to his word, Henry Chapman conducted nearly fifty sales over the following quarter century, including famous collections such as Jenks, Earle, Zabriskie, Parsons, Bement and Jackman, among others. Many would argue, however, that he never sold a finer collection of American coins. Adams terms it a "Famous early collection, perhaps the best. Replete with history and great rarities in all metals." Truly it is a magnificent collection, featuring colonials, pioneer gold, patterns Washingtonia and United States coins in all metals. Clain-Stefanelli 12078 and 12430. Davis 197. Ex Colonel E.H.R. Green Library, in his distinctive binding; ex Clark E. Gilhousen Library, with his signature; ex Craig Smith Library.

Original Plated Bement American Sale

352 Chapman, Henry. CATALOGUE OF THE COLLECTION OF AMERICAN COLONIAL AND STATE COINS, UNITED STATES COINS AND FOREIGN CROWNS, THE PROPERTY OF CLARENCE S. BEMENT, ESQ., PHILADELPHIA. Philadelphia: Davis & Harvey, May 29, 1916. 4to, original white cloth-backed gilt-printed boards. vi, 61, (3), (4) pages; 827 lots; halftone frontispiece plate; 9 very fine photographic plates; original printed prices realized list bound in. A few bumps to edges, else fine. **\$1500**

Adams 29, with plates. The rare post-sale edition, with prices realized list bound in (pre-sale plated hardbound copies are a centimeter taller and, of course, lack the prices realized list). Rated A—overall by Adams: "XF Elephant 1/2¢. MS Oak Tree 6¢. MS 1795–1797 \$1. Gem cents—some incredible. C. Bechtler \$5. 1793 Washington peace medal." A fine copy of this very important sale, featuring American colonial coins, replete with great rarities, and an impressive array of United States large cents in superb condition. The frontispiece depicts a Washington Indian Peace medal; Plate I illustrates choice American colonial coins; Plate II mostly depicts 1870s pattern silver dollars, along with a few halves and the remaining colonials; Plate III illustrates United States and pioneer gold coins and superb United States silver coins, mainly early dollars; Plates IV–VI depict large cents; Plate VII concludes the large cents, also depicting half cents, patterns and other assorted American and foreign rarities; and Plates VIII &

IX illustrate European crowns. In the preface, Chapman writes: "The cents are superb, and for one, the 1793 Liberty Cap, Mr. Bement paid me \$500, the greatest price ever obtained for any U.S. cent." Clarence Sweet Bement was a collector's collector. Indeed, in the *Dictionary of American Biography*, though he was a very successful businessman for many years, "collector" is given as his profession. A.S.W. Rosenbach, his biographer there, further notes that Bement "was prominent among a small group of Americans who found relaxation from their occupations in the pursuit of some branch of art or science. It was to minerals that he devoted the most of his leisure and the greatest care... His collection of minerals became the foremost of its class in America... Another pursuit, perhaps the second to find expression, was Bement's search for rare books, which resulted in the formation of one of the most noted private libraries in the country." This is high praise indeed for perhaps the most famous antiquarian bookseller of all time. Rosenbach goes on the note that "During the latter years of his life he became interested in numismatics. At first this interest extended to both ancient and modern coins, including the American series and paper money. He concentrated later on Greek and Roman coins, of which his collection in time became one of the finest in America." Only Clarence Bement was honored with two large format catalogues by Henry Chapman, one for his American and the other for his European series. These, along with three stand-alone *Ars Classica* sale catalogues encompassing his superb ancient Greek and Roman coins, eloquently confirm his numismatic accomplishments. Davis 207. Adams 36. A notable plated American sale, rated A overall by Adams: "Sommer 12¢. Brasher doubloon. 'Liber Natus.' Clinton 1¢. 1792 disme. Unique Washington 50¢. MS 1793 1¢ (5). MS 1811 1/2¢." A collection abounding in rare colonials as well as silver and copper United States coins. Four of the plates depict the especially notable large cents, which are remarkable for their outstanding condition, and three depict many of the choice colonials. The remaining two plates illustrate Jackman's superb half cents and assorted rare early American silver and gold coins. Of the collector, Chapman notes: "Mr. Allison W. Jackman was a highly cultured gentleman who devoted his life to study, having never engaged in business and being a most devoted son with an equally appreciative mother, his collecting was a pleasure to them both. Born in 1849, he early began collecting coins, which is testified to by notes in his Numismatic diary where he mentions having bought this or that in the early '60's and his interest never ceased. Here therefore, truly is a life work and how well he has mastered it is shown by the coins..." A purely American sale excepting lots 1142–1156 of ancient coins—mostly unimportant Roman Imperial bronzes—separately issued as a single-sheet addenda (tipped into plated copies). Clain-Stefanelli 12000 and 12183. Davis 209. Ex Homer K. Downing Library (New Netherland's Sale 38 [1952 ANA Sale], lot 713; ex Craig Smith Library).

Adams 36 (rated A overall, and for large cents, half cents and colonials in particular). A well-executed production combining the original catalogue and prices realized list with new reprint plates taken from the original glass negatives, the whole well-bound in the likeness of the originals. The quality of the reprinted plates actually exceeds that of the originals. This "reprint," and a similar edition of the June 1918 Bement sale, used original copies of the sale that had been part of the hoard of Chapman catalogues found in the Henry Chapman estate and the photographic negatives (which were in John Ford's possession). Perhaps as few as 20 copies were reproduced. The Jackman sale is important for early American material and for large cents, featuring any number of rarities and spectacular coins. As usual, Plate 7 is partially overexposed. Clain-Stefanelli 12183. See Davis 209. Ex Barry Tayman Library.

Original Plated Jenks Sale

Adams 40, with plates. Rated A+ overall: "Henry Chapman's magnum opus. Superb coins of the world plus U.S. all series, all expertly described." The most famous of the Chapman sales and one of the most renowned American coin auctions ever held. John Story Jenks began collecting coins around 1850 and was 82 years of age when his collection was sold. Chapman claimed that "He is probably the oldest collector in the United States, and nearly every important sale has contributed to his collection." Twenty years his junior, Henry Chapman was still at the height of his considerable powers: "Suffice it to say I have not spared my faculties, energy or money to give in this catalogue full descriptions of the coins contained in this grand collection." For years the Jenks catalogue served as the best American single reference guide to the entire range of numismatics. Of great importance for the fine array of ancient Greek and Roman coins alone, also featured was an incredible selection of medieval and modern European rarities, and an especially important and extensive series of British coins. The American coins, from colonials to pioneer gold, were also of prime importance. The first six plates depict choice ancient Greek, Roman and Byzantine coins; the next twenty-six mainly illustrate European rarities; three plates mostly depict American colonial coins and Canadian tokens; one plate illustrates choice United States patterns; one plate depicts United States gold coins and one is devoted to silver; one plate illustrates large cents and the next depicts half cents and various unusual American rarities; the penultimate plate depicts American pioneer gold coins, and the last plate is devoted to Spanish and Latin American rarities. Adams 22. A rarity among plated Chapman sales, being one of the most difficult large-size Chapmans to locate with plates. Unlike some rare catalogues, however, this one remains of the highest importance for its content. Adams rates the sale an A+, overall: "Superb historic collection, definitive for early war medals, Indian peace medals and Canadian." The plates are of remarkable beauty and clarity and are among the best produced by the Chapmans. Largely devoted to depicting a wide variety of Canadian historical medals, the last four plates also illustrate American medals, British medals, and a few English coins. Bowman page 18: "Mr. Hunter was a barrister in Toronto. His collection ... included such rarities as 53 Indian Chief medals, a gold Beaver Club medal, 7 Louisbourg medals, 2 Oswego medals, 2 Canada Subdued medals, 2 Montreal Taken medals, 2 Upper Canada Preserved medals, 81 war medals, 4 jetons, wheat sheaf, a side view, Northwest, Molson, set Hudson's Bay, Lauzon, 2 bridge tokens and many others." The Simpson collection was the prelude to the fabled Alvord sale of half cents, held later on the same day. In the foreword to the Simpson catalogue, Chapman notes: "A plate of the Cents has been made and with the five plates of the Alvord Collection will (with price list to be sent after the sale) be sold for \$2.50." Though the Alvord sale with plates is also quite rare it is not in the same category as a plated Simpson—the nexus was somehow broken. Perhaps the diminutive supply of plated Alvords emanates from Chapman's unsold stock and the corresponding plated Simpsons somehow became separated and have not survived. Davis 230 (noting that no copies of this rare sale had been offered from 1980 to 1991). Ex George Fuld Library (Katen Sale 37, part of lot 907); ex Harry W. Also present are the commemorative issues published for: the 500th meeting (1960); the Golden Anniversary (1969); and the Bicentennial (1976). Generally near fine. **\$150**

Very scarce. During World War II, the *Bulletin* switched from being a quarterly to an annual format and never switched back. Only one issue of the 1942 volume (Volume VII) was issued. Annual volumes were published for 1943, 1944, 1947, 1949, 1950, 1951, 1952, 1953, 1955 and 1957. Those published between 1951 and 1955 were not numbered, and the 1957 volume, which should be numbered XVII, is instead marked XVI. See Bill Burd's *Medals and Tokens of the Chicago Coin Club* for more information.

Counterfeit Continental Loan Office Certificates

367 [Counterfeiting]. Gorham, Stephen. *LETTER FROM THE COMMISSIONER FOR NEW HAMPSHIRE TO THOMAS HARWOOD, COMMISSIONER OF THE CONTINENTAL LOAN OFFICE, MARYLAND*. May 24, 1786. Handwritten letter, signed, on one side of a folded double-sheet, with the interior pages blank and the final page docketed. Folded, else near fine with a couple of careful marginal repairs not affecting any writing. **\$150**

"I have lately received Instructions from the Board of Treasury to send to the several Loan Officers of the United States such checks of the Certificates issued by me as to enable them to detect counterfeits : but as the numbers which I have issued are comparatively small I herewith enclose a particular list of them, as I think this will be more likely to answer the end proposed than any other mode." Any such list is unfortunately no longer present, but this remains of considerable interest. Ex MJS Library.

1851 Letter Describing Counterfeit Notes

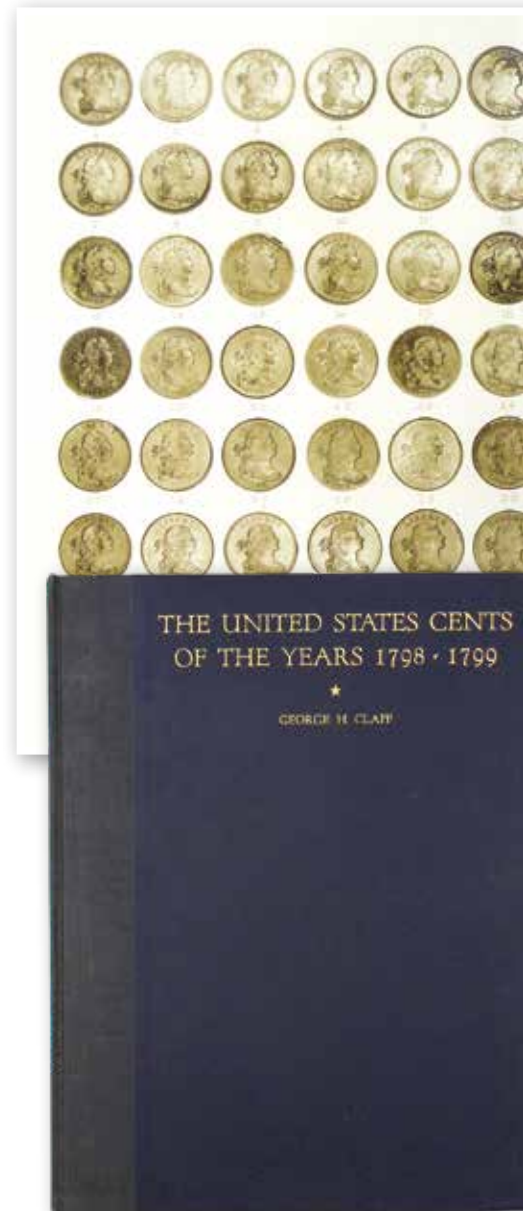

368 [Counterfeiting]. Spooner, William L. and Thomas Spooner. *LETTER ADDRESSED TO LAWRENCE & MCDERMOTT, CONNERSVILLE, INDIANA, REGARDING TWO COUNTERFEIT NOTES*. Cincinnati, June 20, 1851. Handwritten document on blue double letter sheet [39 by 24 cm] folded to make four pages, attempting to locate a James A. Fay, who left the writers with two counterfeit notes, which are described in detail. Letter written on first page; response written on third, with Fay's forwarding address in Albion, Michigan supplied on the fourth page, which is used to make the whole a self-mailer. Doubly postmarked in both Connerville and Albion, with postage of 10 cents recorded in ink stamp. Wax seal mark; near fine. **\$100**

A fascinating document, particularly due to the detail in which the notes are described: "One Twenty Dollar bill, Bank of Kentucky, Hopkinsville, June 8, 1849, No. 155, letter C. One Five Dollar bill, Merchants & Mechanics Bank of Wheeling, payable in Morgantown to M. Gay or bearer, Oct. 8, 1849, No. 858, letter A." Ex MJS Library.

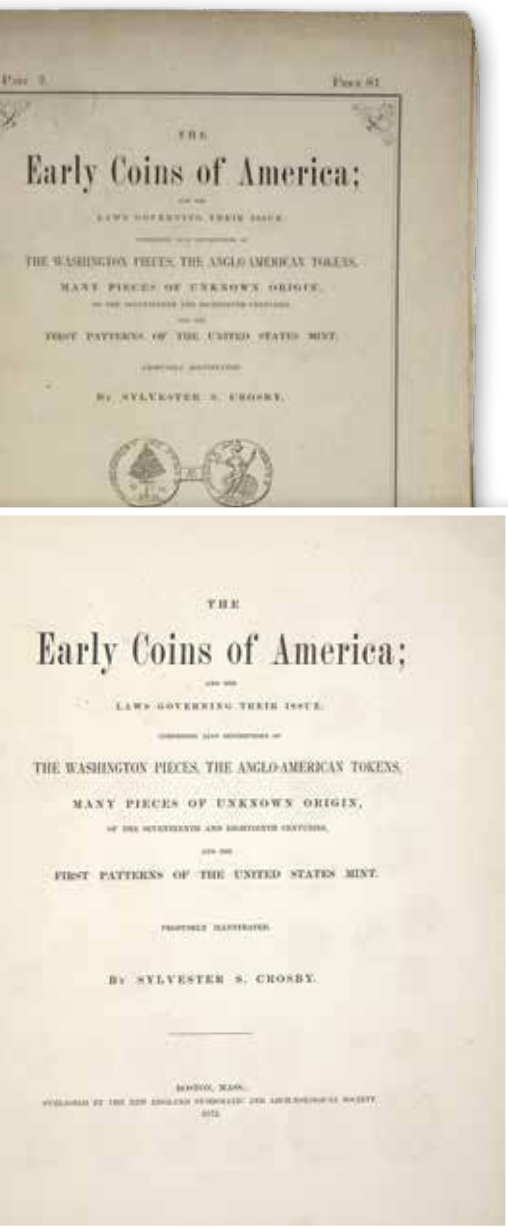

A Case of Counterfeit Postal Currency

Signed by the defendant, the notary, and other court officials, and with the 5 cent Internal Revenue Inland Exchange stamp affixed. Folded, else near fine. **\$150**

Very interesting, being a detailed statement from a defendant in the case (whose name is spelled at least three different ways in the document). Most notable for focusing on counterfeit Postal Currency. Ex MJS Library.

An Original Subscription Set of Crosby's Early Coins of America

As Published in the Original Printed Paper Covers

370 Crosby, Sylvester S. **THE EARLY COINS OF AMERICA; AND THE LAWS GOVERNING THEIR ISSUE. COMPRISING ALSO DESCRIPTIONS OF THE WASHINGTON PIECES, THE ANGLO-AMERICAN TOKENS, MANY PIECES OF UNKNOWN ORIGIN, OF THE SEVENTEENTH AND EIGHTEENTH CENTURIES, AND THE FIRST PATTERNS OF THE UNITED STATES MINT.** Boston: Published by the New England Numismatic and Archaeological Society, 1873 / Published by the Author, 1875. 4to [30.5 by 25 cm], as originally published in 11 fascicules numbered 1–12 [11 & 12 as issued in one] with printed paper covers. 1873 and 1875 title pages and introductions present. (2), v, (5), 11–381, (1) pages [different pages (2), v, (1), comprising the revised title and introduction, laid into Fascicule 11–12]; 110 wood engravings in the text; 2 folding heliotype manuscript facsimiles; 10 fine heliotype plates of coins and tokens. Condition varies, with the first and final fascicules being most heavily worn and the interior ones near fine. Spines of most fascicules are worn, as always, with some covers detached (though present); only the rear cover of the final fascicle is missing. Very good or better. **\$5000**

An original subscription set of Crosby's masterpiece, the foundation upon which all subsequent works on early American coinage have been constructed. Entirely in its original state. The unusual unbound state of the present lot attests to the incredible difficulties Crosby experienced during the production of the book. *The Early Coins of America* was not intended to be the work of Crosby alone. Nominally the head of a committee of six appointed by the New England Numismatic and Archaeological Society to publish a work on early American coinage, Crosby soon found himself alone in that pursuit. Not only was the research and composition of the work done almost entirely by Crosby, ultimately he also had to publish it. The twelve parts (as issued in eleven) were published separately and distributed to subscribers laid into printed covers: it was left to the subscriber to eventually bind his or her copy upon completion. Sets in their original state are very rarely encountered, as the paper covers are notoriously fragile and the printed leaves were simply laid into them instead of being bound.

Some of Crosby's difficulties are apparent through a close examination of the original printed paper covers. On the covers issued for Part I, published in 1873, the publisher is given as the New England Numismatic and Archaeological Society and the printer as Charles Chaplin, a fellow member of that Society. By the time the final installment of the book was published in 1875, the printer was T.R. Marvin & Sons and the publisher was Crosby himself. To make matters even more difficult, there was a financial panic in 1873 and, if that weren't enough, Crosby's wife Mary died in 1874. That the book was completed at all is remarkable; that it was completed so well is nothing short of incredible.

State with overprinted coin numbers on Plates IV and V (see Eric P. Newman's "Bibliographical Foreword" to the 1983 Quarterman reprint for information on plate states). Coin 15a on Plate VII hand-numbered in pencil, apparently as always. Without the handwritten correction, occasionally seen, to Miss Eliza Susan Quincy's name in the subscribers' list on page 381. Clain-Stefanelli 12115*. Davis 291: "The masterpiece of nineteenth century numismatic literature." Grierson 218. Sigler 603.

An Original 1875 Crosby

371 Crosby, Sylvester S. **THE EARLY COINS OF AMERICA; AND THE LAWS GOVERNING THEIR ISSUE. COMPRISING ALSO DESCRIPTIONS OF THE WASHINGTON PIECES, THE ANGLO-AMERICAN TOKENS, MANY PIECES OF UNKNOWN ORIGIN, OF THE SEVENTEENTH AND EIGHTEENTH CENTURIES, AND THE FIRST PATTERNS OF THE UNITED STATES MINT.** Boston: Published by the Author, 1875. 4to, original black half morocco, gilt; spine with five raised bands, ruled and lettered in gilt; marbled endpapers. (2), v, (5), (11)–381, (1) pages; 110 wood engravings in the text; 2 folding heliotype manuscript facsimiles; 10 fine heliotype plates of coins and tokens. Hinges a bit weak; binding rubbed and worn at extremities; very good. **\$900**

A first edition of what is arguably the best and certainly the most enduring work on American numismatics ever written. Sylvester Sage Crosby began gathering information for his magnum opus in the late 1860s. Nominally the head of a committee of six appointed by the New England Numismatic and Archaeological Society to publish a work on early American coinage, he soon found himself alone in that pursuit. Not only was the research and composition of the work done almost entirely by Crosby, ultimately he also had to publish it. "It is truly the keystone to any library of American coinage." — Eric P. Newman. State with overprinted coin numbers on Plates IV and V. Coin 15a on Plate VII hand-numbered in pencil, apparently as always. Without the handwritten correction, sometimes seen, to Miss Eliza Susan Quincy's name in the subscribers' list on page 381. Voted No. 2 on the Numismatic Bibliomania Society's "One Hundred Greatest Items of United States Numismatic Literature." Attinelli 105. Clain-Stefanelli 12115*. Davis 291. Grierson 218. Sigler 603.

Crosby on the Coinage of 1793

372 Crosby, Sylvester Sage. **THE UNITED STATES COINAGE OF 1793.—CENTS AND HALF CENTS. DESCRIPTIONS OF THE VARIOUS DIES BEARING THAT DATE, WITH NOTES ON THE ESTABLISHMENT OF THE MINT.** Boston: Published by the Author, 1897. Crown 4to, later dark blue cloth, gilt. 36 pages; 3 tinted halftone plates of coins. Near fine. **\$200**

Homer Downing's copy of this notable work, being a second edition of the monograph written by Crosby, in collaboration with Joseph N.T. Leveck, which appeared in the April 1869 issue of the *American Journal of Numismatics*. In a series of four *AJN* articles appearing in 1896 and 1897, Crosby presented the results of his research in the intervening quarter century. Later in 1897, this edition of 200 copies, reprinted with additions, was separately issued. Sheldon thought highly of the work, noting: "Crosby's book was so accurate and complete that in the half century since its publication no further varieties of 1793 have been found." Ex Homer K. Downing Library (New Netherland's Sale 38 [1952 ANA Sale], lot 640); ex Craig Smith Library.

Glass Negative of Extraordinary Bank Note Broadside

373 Danforth, Wright & Co. **GLASS PHOTOGRAPHIC NEGATIVE DEPICTING ENGRAVED BROADSIDE EXHIBITING BANK NOTE VIGNETTES, PORTRAITS, AND DESIGN ELEMENTS.** Approximately 20 by 25 cm. Photographer unknown. Broadside printed in Philadelphia or New York between 1853 and 1858. Finely preserved, with no apparent flaws. **\$300**

A beautiful and curious item, and a rare (likely unique) survivor. The printed broadside photographed on this negative was massive, and the extraordinary number of bank note design elements represented on it is exceptional. Danforth, Wright & Co. was one of the firms that combined to form the American Bank Note Company in 1858. The broadside depicted has fold marks and other signs of wear; that, coupled with the style of the negative, suggests a date of 1890–1910 for the negative. Ex Lester Merkin; ex Eric P. Newman Numismatic Education Society (Heritage 2018 sale, lot 15202 at \$960); ex MJS Library.

The Ridgway Congressional Gold Medal

374 Dargate Auction Galleries. **THE ESTATE OF GENERAL AND MRS. MATTHEW B. RIDGWAY.** Pittsburgh, October 25, 1997. 4to, original spiral-bound pictorial card covers. (3)–60, (2) pages; 895 lots; illustrated, partly in color. Accompanied by correspondence between the auction house, Wayne Homren, Stack's and John J. Ford, Jr., some of it in photocopy. Fine. **\$100**

A unique assemblage of material. General Ridgway was presented with a Congressional Gold Medal in 1991 (Act of Congress, 1990) for his role as Supreme Allied Commander Europe and the 19th Chief of Staff of the United States Army. He died in 1993; after the death of his wife Mary in 1997, their estate was offered at auction, and his Congressional Gold Medal was included in the sale. John J. Ford, Jr., asked Wayne Homren to attend the sale in person and to represent him in it, on Stack's account. The correspondence here present includes photocopies of background material on Ridgway and his medal, correspondence between Stack's and Dargate authorizing Homren's participation, draft and final invoices and other materials. (2), vi, 387, (3) + vi, 386 + vi, 269, (1) + viii, 222 pages. Fine. **\$200**

A valuable reference work to those interested in the study of early American history and, in the context of numismatics, a key source of documentary information on American medals up to 1815 issued by European entities. Ex Barry Tayman Library.

First Edition of Dickeson

377 Dickeson, Montroville Wilson. *THE AMERICAN NUMISMATICAL MANUAL OF THE CURRENCY OR MONEY OF THE ABORIGINES, AND COLONIAL, STATE, AND UNITED STATES COINS. WITH HISTORICAL AND DESCRIPTIVE NOTICES OF EACH COIN OR SERIES.* First edition. Philadelphia: J.B. Lippincott & Co., 1859. 4to, original blindstamped maroon-brown cloth, gilt. Handsome lithographic frontispiece portrait of the author; additional frontispiece of the Libertas Americana medal; 256 pages; illustrated throughout and on 19 attractive lithographic plates of coins and currency printed in colors and metallic tints. Spine cloth very worn, with loss. Contents very good. **\$200**

The first edition of the first work covering the entire range of American numismatics, Dickeson's book is a landmark of American numismatic history. By nature a popularizer and showman, Dickeson toured the country for several years in the early 1850s lecturing on North American archeology and excavating Indian mounds. His *Numismatical Manual* (the *al* was dropped after the first edition) was also clearly intended to reach a mass market. Handsome in format and visual presentation, it was distributed by a major publisher of the day and written in an authoritative manner. Dickeson even envisaged, "if it should be approved, to prepare an edition for the use of schools." Until the appearance of Breen's magnum opus in 1988, it remained the only comprehensive work on American numismatics ever published. Clain-Stefanelli 12280.

Second Edition of Dickeson

378 Dickeson, Montroville Wilson. *THE AMERICAN NUMISMATIC MANUAL OF THE CURRENCY OR MONEY OF THE ABORIGINES, AND COLONIAL, STATE, AND UNITED STATES COINS. WITH HISTORICAL AND DESCRIPTIVE NOTICES OF EACH COIN OR SERIES.* Philadelphia, 1860. Second edition. 4to, original brown cloth, intricately decorated in blind; gilt impression of 1849 double eagle on front board; blind impression of same on rear board; spine lettered in gilt. x, 11–271, (1) pages; handsome lithographic portrait of the author printed in two colors; frontispiece of the Libertas Americana medal; text illustrations; 20 attractive lithographic plates of coins and currency printed in colors and metallic tints; "Model Safe" plate. Binding treated long ago with something akin to shellac; lacks flyleaves. Remarkably free of foxing; near fine. **\$200**

The scarcest of the three editions published. Breen *Encyclopedia* page 680: "A pioneering effort to cover the same material as this *Encyclopedia*, before the necessary comparison methods were developed." Clain-Stefanelli's appraisal is less flattering: "Many misinformations." While both are correct, this landmark work remains a remarkable achievement. Until the appearance of Breen's magnum opus in 1988, it remained the only comprehensive work on American numismatics ever published. While the binding of this copy has been visibly treated, it is free of the foxing and staining that seems endemic with this title. This edition is the only one to include the "Model Safe" plate. A well above-average copy. Clain-Stefanelli 12280. Ex L. Renaud Library, with his bookplate; ex Barry Tayman Library.

Rehoboth, 1991–2006. All 8vo, original printed card covers; mounted illustrations. First volume inscribed by the author. Generally fine. **\$200**

A substantial set of Durand's books examining different facets of U.S. paper money, including nine of the thirteen titles published. Complete sets are rare. Quite interesting, indeed. Ex MJS Library.

Original Eckfeldt & Du Bois

380 Eckfeldt, Jacob R., and William E. Du Bois. *A MANUAL OF GOLD AND SILVER COINS OF ALL NATIONS, STRUCK WITHIN THE PAST CENTURY....* Philadelphia: Published at the Assay Office of the Mint, 1842. Small 4to, original dark brown embossed cloth, front cover lettered within a foliated border surmounted by an eagle, all in gilt. Finely engraved frontispiece title engraving of the Mint building; (4), iv, (5)–220 pages; 16

plates of coins, all attractively engraved via the medal-rule machine on coated paper, with original tissue guards. Binding rubbed, with moderate wear; spine with some tears to joints; very good. **\$300**

The first edition of this landmark work in American numismatics in a scarce original binding. For nearly two decades, it was the only practical guide available to American coin collectors. It was also the first work to illustrate the 1804 dollar and was one of the earliest works to combine photographic techniques, electrotyping and the medal-rule machine for illustrative purposes. Ex Craig Smith Library.

Covers a bit worn; else near fine. **\$400**

Adams 21, with plates. Rated A+ overall and A in large cents, proofs, early and late silver, and private gold in particular. At the head of the large cent section, Elder terms it “the finest collection ever sold at auction” and notes that “Most of these choice pieces were purchased by Mr. Wilson at the Frothingham sale in May, 1883. Several are from the Parmelee collection.” Two paragraphs in the preface are devoted to the private gold collection, “one of the best that has ever been offered.” Eight of the plates illustrate large cents; three plates depict United States gold coins; there are four plates of silver dollars, two of halves and one each of quarters and dimes; two plates depict pattern silver dollars and ten early half dimes; three plates illustrate ancient, medieval and modern foreign coins; and four plates depict pioneer gold rarities. Elder boasts in his introduction that the plated edition contains more plates than any other previous numismatic sale, which appears to be the case. Davis 350. Frossard's Monograph, in Contemporary Binding

386 Frossard, Ed. **MONOGRAPH OF UNITED STATES CENTS AND HALF CENTS ISSUED BETWEEN THE YEARS 1793 AND 1857: TO WHICH IS ADDED A TABLE OF THE PRINCIPAL COINS, TOKENS, JETONS, MEDALETS, PATTERNS OF COINAGE AND WASHINGTON PIECES, GENERALLY CLASSIFIED UNDER THE HEAD OF COLONIAL COINS. A CONTRIBUTION TO THE NUMISMATIC HISTORY OF THE UNITED STATES.** Irvington: Published by the Author, 1879. 8vo, contemporary light brown half morocco, gilt, with pebbled cloth sides; spine with five raised bands, ruled and lettered in gilt; page edges speckled. 58, (2) pages; 9 heliotype plates with tissue guards, with 8 featuring handwritten ligatures and/or numbers. Binding rubbed, especially at spine, though sound and attractive. Very good or better. **\$200**

A nice copy of this classic work, with a full complement of authorial annotations to the plates. Frossard took the opportunity presented by his Jan. 3, 1879 sale of the George Merritt collection to compile this work, illustrating it with coins from Merritt's collection as well as from that of Lorin G. Parmelee. The story of the compilation of these plates is told in the September 1878 issue of *Numisma*, though it has been inaccurately stated through the years that the plates were initially created for use in the Merritt catalogue (they are the wrong size for an auction catalogue and depict both sides of most early varieties, using of necessity different coins—from both Merritt and Parmelee—to do so). Three hundred copies were printed (this is No. 180). The plates were intended

not only to illustrate the various die varieties, but to assist the collector in learning how to grade properly: throughout the work, Frossard provides his own opinion of the grades of the pieces illustrated. The book is a good overview of both series and one of the earliest to deal with die varieties for dates past 1794. Of considerable historical importance as one of the early major works on large cents and half cents. Davis 400. Ex Kolbe & Fanning Sale 147, lot 344; ex Craig Smith Library.

Frossard on Franco-American Jetons

389 Frossard, Ed. **FRANCO-AMERICAN JETONS, FULLY DESCRIBED AND ILLUSTRATED.** New York: Privately Published, 1899. 8vo, original printed paper covers. 14, (2) pages; 52 descriptions; 2 very fine plates. Spine taped; lacking rear cover. Annotated throughout with auction prices realized. Very good. **\$100**

A very scarce work, of which only 100 copies were printed. The monograph was dedicated to the notable Chicago numismatist Charles Morris, whose collection of jetons undoubtedly formed the basis of Frossard's detailed catalogue. Still cited and quite useful. Ex Barry Tayman Library.

390 Fuld, George and Melvin. **PATRIOTIC CIVIL WAR TOKENS / PHOTOGRAPHIC PLATES FOR PATRIOTIC CIVIL WAR TOKENS.** Racine and Cambridge: Whitman and Privately Printed, 1960 and 1959. Two volumes. Annotated Special Edition Naftzger & Holmes Sales

392 Goldberg, Ira and Larry. **THE TED NAFTZGER COLLECTION, PART II: THE MIDDLE DATES.** Beverly Hills, February 1, 2009. 4to, original brown leatherette, gilt. 273, (1) pages; 476 lots; illustrated in color. Fine. [with] Goldberg, Ira and Larry. **THE DAN HOLMES COLLECTION: PART II. THE MIDDLE DATES.** Beverly Hills, May 30, 2010. 4to, original red leatherette printed in silver. 320 pages; 563 lots. Fine. Both catalogues are augmented with extensive notes originally provided by Jan Valentine and then supplemented by Del Bland, giving commentary on the sales, as well as the prices realized and buyers for most lots. **\$300**

The special hardcover editions of these very important large cent sales, catalogued by Bob Grellman and Chris McCawley. The careful tracking of provenance by Jan Valentine and Del Bland makes these particular copies of particular importance. For many years, Del Bland kept meticulous records of the ownership histories of U.S. large cents, particularly early dates but also (as seen here) important examples of the middle and late dates. Ex Del Bland Library.

Rare Fourth Edition of Gouge

393 Gouge, William M. **A SHORT HISTORY OF PAPER-MONEY AND BANKING IN THE UNITED STATES. INCLUDING AN ACCOUNT OF PROVINCIAL AND CONTINENTAL PAPER-MONEY...** New-York: Published at the Office of the Evening Post, 1840. Fourth edition. 8vo, original printed paper covers. 42, (2), (5)–64 pages. Front cover with most of top inch clipped; Quite worn at spine. Very good or so. **\$150**

The first copy we have handled of this admittedly poorly printed edition. Gouge's work would go on to be reprinted serially in the *Journal of Banking* for 1841 and 1842, lending further indication of its influence at the time.

The Complete Charles Morris Sales

394 Green, Ben G. **THE CHAS. MORRIS COLLECTIONS, PARTS I–X.** Chicago, 1912–1913. Sale Numbers 70–81 [70/71 and 75/76 are double catalogues]. Ten catalogues, bound in one volume. 8vo, later maroon cloth, gilt; original printed card covers bound in. Part I is partly priced and named; Part II includes an original printed prices realized list; Parts III, IV, VI, VII, VIII, IX and X are hand-priced. Occasional repairs. Generally very good or better catalogues in a well-preserved binding. **\$300**

An important series of catalogues, rarely offered complete and even more rare with prices and other annotations. While Green may be considered a second-tier dealer, he was an active promotor of the hobby and was truly knowledgeable in several specialized fields including encased postage and fractional currency. Green also sold the highly significant collection of Canadian coins, tokens and medals formed by Charles Morris (1829–1912), which took pride of place in no fewer than *ten* auctions, all of which are collected together here. Ex Barry Tayman Library, with his signature and bookplate.

The Colonel Green Collection Archives: The Deal of the Century

395 Green, Colonel Edward H.R. ARCHIVES RELATING TO THE PURCHASE OF ITEMS FROM THE ESTATE OF EDWARD H.R. GREEN BY ERIC P. NEWMAN AND BURDETTE G. JOHNSON. Two boxes of correspondence, inventories, and financial papers, including thousands of pages of detailed records tracking the purchase and resale of coins, medals, and paper money from the Green Estate. Mostly consisting of loose sheets in folders, but also including typewritten inventory records housed in small binders, the archives are in very good overall condition. **\$10,000**

Of the highest importance. The son of financier Hetty Green, popularly known as the "Witch of Wall Street," Colonel E.H.R. Green (1868–1936) spent untold sums in the 1920s and 1930s on his hobbies. He vies with King Farouk as perhaps the most eccentric coin collector of the twentieth century. Arthur H. Lewis's appropriately named full-length biography, *The Day They Shook the Plum Tree*, perhaps best tells the remarkable story of Hetty Green and her unusual son, who, upon Hetty's death, spent some \$3,000,000 a year on yachts, coins, stamps, jewels, orchid culture, and other luxuries. His numismatic holdings were amassed on a scale exceeded by few. The disposition of his estate was a major undertaking.

▲ Lot 395

The story of the Green Estate coins and their acquisition by Eric P. Newman and Burdette G. Johnson has become the stuff of numismatic legend and has been told many times before. It began on August 15, 1939, when Newman drew upon his slight acquaintance with Colonel Green to approach his estate about purchasing some of Green's Missouri paper money:

I am a collector of paper money and specialize in items current in Missouri. The late Edward Green was very well known in the numismatic field and had in his collection certain bank notes from the State of Missouri which I would very much like to purchase. I do not know what disposition you plan to make or have made of some of his various collections but would appreciate very much if you could tell me who has charge of the collections and if the same were inventoried.

Being a graduate of M.I.T. I had the opportunity of knowing Colonel Green and did not at that time ask him to part with any of the things which gave him so much pleasure. Now, however, I would like to have you put me in touch with the person who could let me know what Missouri items are in Colonel Green's collection and how I might find out if I could obtain some of these items.

Writing to the Green Estate was a bold move on Newman's part. The Estate was almost incomprehensibly large, and the Missouri paper money he sought was utterly insignificant in relation to the matters with which the executors had to be concerned. But nothing ventured, nothing gained, and Newman's letter eventually bore results he could scarcely have dreamt of. The purchase of \$1200 worth of Missouri paper items was the first of what would become many acquisitions from the Green Estate. When it became clear that Newman could arrange the purchase of virtually any of Green's collections, he brought his good friend and numismatic mentor Burdette Johnson into the deal and they quickly came to an arrangement that was more than satisfactory to both of them. While the purchase correspondence through the end of 1939 is only 11 pages, broadening to 33 pages for 1940, it jumps dramatically to over 600 pages for 1941 as what must be considered the Deal of the Century took off. Much of the correspondence consists of Johnson reporting to Newman on sales he had made. Others enclose funds for additional purchases. One amusing example from December 20, 1941, has Johnson briefly writing Newman: "Herewith check for \$500.00 covering my half interest in the three 1913 Liberty Head Nickels."

The Green Estate archives divide into two interrelated categories: purchase correspondence and settlement records. The purchase correspondence largely consists of Newman writing the Estate, usually through Chase Bank in New York, and negotiating purchases. It also contains Newman and Johnson's correspondence and inventory records, the latter of which includes six small notebooks devoted to dimes, paper money, cents, and half dollars (with two copies of the last two being present). Materials are mostly typewritten, but occasionally handwritten; typewritten materials are frequently annotated by hand. Occasional other items, such as telegrams and adding machine tape, are also included.

The settlement records were intended for use by Newman and Johnson in tracking the sale of items acquired from the Estate and the distribution of proceeds. Newman's task was to be the primary contact with the Estate, while Johnson was responsible for selling what Newman obtained. The proceeds were to be divided between the two. These records are painstaking in detail, meticulously recording each item sold and the price achieved. The close friendship between Newman and Johnson could lead one to expect a less rigorous accounting, but the personalities of the men involved insisted on strict record-keeping as the best way to maintain that close friendship. On more than one occasion, trifling errors were corrected by one party sending the other a check for an amount small enough to be ignored by most. The records continue through Johnson's death in February 1947 and consist of nearly 2000 pages of material.

Given the enormous size of Green's collection and the fact that it was privately distributed after his death, the present archives are of exceptional significance in tracing the provenance of coins to Green's collection and in determining their subsequent disposition. These records constituted one of the most important parts of the Eric P. Newman Library, and brought over \$15,000 in the 2018 sale of his library. Ex Eric P. Newman Numismatic Education Society Library (Heritage, November 2018 [catalogue written by David Fanning], lot 15106).

Deluxe Leather Edition of Gutttag's Guide

396 Gutttag Bros. **RARE COINS OF THE UNITED STATES**. New York, 1921. Cover title cited. 16mo [16 by 12 cm], original distinctively blindstamped full black morocco; upper cover lettered in gilt; faux white moiré endpapers; all page edges gilt. Limitation leaf, (4), 112, iv, (2) pages; coin illustrations throughout. A bit rubbed; effaced writing on pastedown; very good or better. **\$150**

No. 23 of the Deluxe Leatherbound Edition. An early premium guide issued by the brothers Gutttag, specialists, as cited on the front covers, in foreign money and foreign exchange, as well as being numismatists. It was issued slightly after, or perhaps concurrently with, the firm's ubiquitous *Foreign Currency and Exchange Guide*, advertised on the last page. In contrast, *Rare Coins of the United States* is infrequently encountered in any form. The firm's wide-ranging traditional activities are headlined in the present volume: Bullion, Specie, Foreign Bank Notes, Collections Made in All Parts of the World, Brokers in Foreign Exchange, Traveler's Cheques, Letters of Credit, Etc. At the time of publication, however, the Gutttag firm was beginning to expand its business to include the marketing of rare foreign and American coins. Their first Coin Bulletin, published in the spring of 1923, announces: "For years past we have been dealing in Coins as part of our general business, but on account of the tremendous increase in this branch we have found it necessary to establish a new department to deal in COINS EXCLUSIVELY."

Ford's Photos of the So-Called Bushnell Hard Times Tokens

397 [Hard Times Tokens]. SET OF PHOTOGRAPHS DEPICTING HARD TIMES TOKENS OF QUESTIONABLE ORIGIN. Set of 32 black and white photographs, 8 by 10 inches, separately depicting the obverses and reverses of 16 different Hard Times Tokens at high magnification. No indication of photographer, or when or where taken, but apparently prepared for John J. Ford, Jr. from pieces in Don Miller's collection around 1984. Photos much enlarged, with token diameters of approximately 7 inches. Annotated on backs in pencil. Housed in a custom-made clamshell box [black linen with black leather spine label, gilt]. Fine. **\$300**

Outstanding photographs of a group of extremely rare varieties, traditionally said to have been struck at the order of Charles I. Bushnell in the 1860s. This attribution has since come into question, with Q. David Bowers believing them more likely to have been produced for J.N.T. Levick and Henry Davenport. The following Low numbers are included: 24, 25, 26, 26c in brass, 26d, 27, 41 thick planchet, 41 thin planchet, 41a in silver, 42a in silver, 43, 70, 70a in silver, 71, 71 in silver and 71b in brass. According to Charles Davis, only six sets of these photographs were produced. Their extremely high magnification and crisp focus allows detailed study of a sort arguably even surpassing direct examination of the pieces themselves. Plated Chubbuck Sale in a Contemporary Binding

398 Haseltine, John W. CATALOGUE OF A VERY LARGE AND VALUABLE COLLECTION OF GOLD, SILVER AND COPPER COINS AND MEDALS, COMPRISING THE CABINETS OF S.W. CHUBBUCK, OF UTICA, N.Y., AND OTHERS. Philadelphia, February 25–28, 1873. 8vo, contemporary brown half morocco with brown sides; spine with four raised bands, lettered in gilt. 127, (1) pages; 2896 lots; 5 fine photographic plates, mounted on very thick card stock as issued. Handwritten index bound in; hand-priced in ink. Very good or better. **\$300**

Very scarce with plates. Adams A: "Washington Funeral Medal in gold. NE shilling. 1823 and 1827 25¢." Adams page 48: "The only real rarity of the (Haseltine) series is a plated Chubbuck, of which fifty copies were made." Haseltine and Attinelli, for whatever reasons, are uncharacteristically silent about this important collection and the collector who formed it. The first plate depicts rare American silver coins; the second comprises illustrations of Annamese coins; the third features large cents 1793–1832; the fourth depicts European and Latin American medals and two ancient coins; and the fifth illustrates three large European medals and a silver Libertas Americana medal. It is the only sale in the entire Haseltine series issued with plates, though two were prepared for the 1883 Harold P. Newlin sale that subsequently were employed in the Newlin monograph on half dimes, published later in the same year. Ex Barry Tayman Library.

Ulex's American Coins & Medals

401 Hess (Nachf.), Adolph. SAMMLUNG DES † HERRN GEORG F. ULEX-HAMBURG. MÜNZEN UND MEDAILLEN VON NORD-, CENTRAL- UND SÜD-AMERIKA (MIT AUSSCHLUSS DER COURANTMÜNZEN DER VEREINIGTEN STAATEN). NUMISMATISCHE BÜCHER. Frankfurt, 11. May 1908 und folgende Tage. 8vo, later plain pamphlet folder with typewritten label; original printed paper covers bound in. (4), 173, (1) pages; 4176 lots; 6 fine plates. Near fine. **\$200**

Georg F. Ulex, of Hamburg, Germany, assembled one of the great collection of coins of the Americas in the late 19th century. His monumental cabinet was offered in this 1908 sale by the firm of Adolph Hess (Lyman Low had sold part of it in 1902). The catalogue includes Washingtonia, a 1760 Florida Proclamation 4 reales, Betts medals (Admiral Vernon, Raleigh Plantation), and necessity coinage of the West Indies, among much else. A scarce early foreign catalogue with American content. Clain-Stefanelli 10559*. Grierson 314. Ex Barry Tayman Library.

A Complete Set of the Numismatic Scrapbook Magazine

402 Hewitt, Lee F., et al. [publishers]. THE NUMISMATIC SCRAPBOOK MAGAZINE. Volumes 1–42 (Chicago & Sidney, January 1935–February 1976), complete in 480 issues. 24mo, 12mo and 8vo, as follows: 1935–1936 are bound together in one volume; 1937–1954 are bound in one volume each; 1955–1968 are bound in two volumes each; 1969–1976 are as published in paper covers. Also present is the *Title Index to the First 30 Years of the Numismatic Scrapbook Magazine*, bound in cloth. Cloth bindings vary in color. Very good to fine, with some volumes with minor signs of wear. **\$400**

A complete set of this important and underappreciated publication. At its peak, the *Scrapbook* was the voice of commercial American numismatics. It also served as a sounding board for serious American numismatic research and piquant observations by Walter Breen, Robert Julian, Arlie Slabaugh, and many others (Breen preferred publishing in the *Scrapbook* for much of the 1950s and 1960s because, unlike *The Numismatist* at the time, the *Scrapbook* paid for articles). The early issues have long been difficult to obtain and complete sets are legitimately scarce. Bourne 1930–9. Ex Barry Tayman Library.

The Paper Money of New York

403 Hickcox, John H. A HISTORY OF THE BILLS OF CREDIT OR PAPER MONEY ISSUED BY NEW YORK, FROM 1709 TO 1789: WITH A DESCRIPTION OF THE BILLS, AND CATALOGUE OF THE VARIOUS ISSUES. New York: Hickcox & Co., 1866. Joel Munsell, Albany, printer. Tall 4to [26 by 18.5 cm], 19th-century blue half calf with

marbled boards; five raised bands, second and fourth resulting panels with gilt-printed morocco labels; spine tail lettered MUNSSELL 1866; spine richly decorated; marbled endpapers; top page edges gilt. 2 blank leaves; (6), 103, (1) pages; title printed in red and black; engraving illustrating rate of depreciation facing page 99. Binding somewhat worn, with rear board detached and top panel of spine lacking. Else very good. **\$150**

An important contribution to the study of colonial and Continental paper money issued by the state of New York. Hickcox's text was one of the earliest serious works on the subject, printed just after Henry Phillips's work on colonial and Continental currency. He provides a history of New York currency, establishing the proper context with a discussion of the greater economy and early struggles to establish a circulating medium of exchange. He then presents a catalogue of the various issues, discussing each one separately and going into the background of each note, giving information on number printed, signers, designs and so forth. An important early U.S. numismatic work, that has stood the test of time very well. This copy is in need of restoration, but is well worth it: the binding must have been gorgeous when new, and it retains considerable charm even with its current faults. One of 250 copies printed. Not listed in Atinelli. Bibliotheca Munselliana 144. Clain-Stefanelli 13342.

Includes the 1928 and 1930 ANA sales, the first with the original prices realized list. Both sales are rare, and copies with an original PRL are almost unheard of. A difficult series to collect, though including some notable sales. In addition to the ANA sales, Lange held three sales of material from the T. James Clarke collection (of which two are present in this volume). Sale 10 featured 200 lots of colonials, 60 lots of half cents and nearly 500 lots of large cents. The Burdette G. Johnson Invoice Files

407 Johnson, Burdette G. INVOICES FOR COINS, 1940–1947. Seven archival file boxes housing 254 acid-free file folders containing approximately 3000 carbon-copy type-written invoices for coins sent to various clients (both collectors and dealers) between 1940 and Johnson's death in early 1947. Tens of thousands of coins are recorded on these invoices. Materials in general are well-preserved.

\$2000

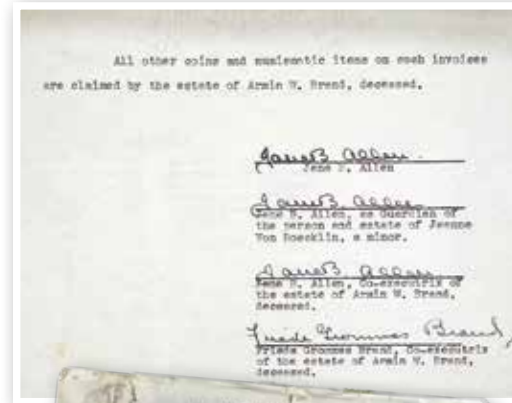

Burdette Johnson is exactly the sort of coin dealer whose activities used to be relegated to the dustbin of history. He was primarily a wholesaler, selling coins to other dealers, though he did conduct an extensive retail business as well. He didn't tend to publish, however, leaving his legacy in the hobby subject to the vagaries of memory. Johnson conducted himself and his business with a quiet demeanor and a personal integrity that cherished the confidentiality of his clients. He was the opposite of a figure like B. Max Mehl, whose primary contribution to the hobby was promotional. But there are drawbacks to being private, and once the generations of collectors and dealers with whom Johnson had dealt had passed on, his contributions were largely forgotten. We have seen other examples in our time of collectors and dealers whose energetic participation in the hobby had mostly been forgotten but whose reputations and contributions have in recent years been revived and acknowledged. Eric P. Newman's friend F.C.C. Boyd is a good example of someone who, just twenty-five years ago, was known only to the cognoscenti but whose name is once again famous in numismatic circles. Dealers like Elmer S. Sears and James Macallister are still waiting for their due recognition.

Burdette Johnson died suddenly in February 1947, with no time to settle his affairs. He was unmarried and his will stipulated that Eric P. Newman, his good friend, protégé, and partner in the Colonel Green estate, would act as co-executor. Had Johnson evinced the slightest interest in preserving his fame, he could have asked for no one better. Due to Newman's preservation of Johnson's meticulous records, this archive of materials—an outstanding resource for those researching the provenance of significant coins—has been saved for numismatists of today. The Burdette G. Johnson Estate

408 [Johnson, Burdette G.]. **INVENTORY OF COINS IN THE ESTATE OF B.G. JOHNSON.** Undated (presumably 1947). Over 900 pages, typewritten with handwritten annotations and ink stamps. [with] **COIN LIBRARY.** Undated (presumably 1947). 34 pages, typewritten with handwritten annotations. Both inventories a bit worn from initial use, but remain very good. **\$1500**

Burdette Johnson died suddenly on the morning of February 24, 1947, as he took a streetcar to his office. With no warning to encourage him to prepare his affairs (he died of an aneurysm), his executors had a difficult job. One of these executors was Eric P. Newman, and his familiarity with Johnson's business, and in particular with Johnson's holdings from the Colonel Green Estate, were undoubtedly extremely helpful at this time. The coin inventory the executors compiled lists close to 20,000 coins belonging to Johnson's estate, about 55% of which are U.S. coins and 45% foreign coins. Within the coin inventory is a two-page typewritten statement dated May 7, 1947, signed by Jane Brand Allen and Frieda Grommes Brand, attesting to their ownership of the coins in Johnson's possession from the Estate of Armin Brand (derived in turn from the Estate of Virgil Brand). The library was ultimately acquired by Eric P. Newman, while the coins were divided between two of Johnson's heirs. The inventories demonstrate the high level of Johnson's activity in the numismatic field, with the breadth of coverage testifying to his impressive range of knowledge. Ex Eric P. Newman Numismatic Education Society Library (Heritage, November 2018 [catalogue written by David Fanning], lot 15108 at \$2880).

Nearly Complete Set of Kosoff Catalogues

One hundred two numbered sales, as issued in seventy-six catalogues. Varying formats, most in original card covers; a small number self-covered as issued as part of the *Numismatic Gallery Monthly* or *Kosoff's Coin Bulletin*. Thirty-five catalogues hand-priced or with original prices realized lists. Two in later bindings. Also included are the Numismatic Gallery's 1944 fixed price list of the Oscar J. Pearl large cent collection and the firm's 1945 *Rare Coins Offered at Fixed Prices*. Generally near fine, with a few exceptions. **\$400**

A very substantial set, missing only nine catalogues for completion—six of which were published in the *Numismatic Gallery Monthly*. Like B. Max Mehl, Abe Kosoff is often regarded today as a better marketer than a numismatist, but dismissing his catalogues would be a mistake. The fact is that, whether through marketing or not, Kosoff attracted a large number of important collections over the three decades in which he held auctions, handling many famous rarities

in the process. Among the important catalogues included in this particular lot are the landmark 1943 Michael F. Higgy collection; the F.C.C. Boyd "World's Greatest Collection" sales; the 1948 "Memorable Collection"; the 1950 Adolph Menjou catalogue; Charles Williams's large cents; various ANA Convention sales; and several others.

Beverly Hills, 1948–1953. 8vo, self-covered and three-hole punched as issued. Generally near fine. **\$300**

Bourne 1940-24. An interesting publication providing considerable insight into the methods employed by Kosoff to propel him to the top rank of American coin dealers, along with a goodly number of sale listings of quite significant American coins. As is often the case with house journals, the constitution of a complete set can at times be difficult to determine. This set comprises Volume I, Nos. 1–8, Volume II, Nos. 1–12, Volume III, Nos. 1–12, Volume IV, Nos. 1–12, Volume 5, Nos. 1–11 and Volume VI, Nos. 1–4. Integral parts of the *Monthly* are no fewer than fourteen auctions that are included by Kosoff in his numbered series of 110 sale catalogues: these comprise sales 47–53, 57–59, 61, 67, 70 and 71 (six of which are missing from the nearly complete set of Kosoff auctions listed above). Complete sets of the *Monthly* are seldom encountered.

The First Numismatic Article on American Coins

433 Mease, James. OLD AMERICAN COINS. *Collections of the Massachusetts Historical Society*. Third Series, Volume VII (Boston: Charles C. Little and James Brown, 1838). 8vo, later blue cloth, gilt. 304, (2) pages. [Mease's article comprises pages 282 to 283.] Ex Long Island Historical Society, with stamp to title. Near fine.

\$1500

Mease's 1838 article is "the first numismatic article on American coins published in America," according to Eric Newman (*The Asylum*, Summer 1992). Of the highest importance and of considerable rarity. Brief as it may be, this work is one of the foundations upon which U.S. numismatic scholarship has been constructed. Indeed, it is of greater value than merely as a curiosity or historical artifact: Newman's aforementioned article discusses how Mease's comments on the Bar Cent and the circulating value of Connecticut coppers have important implications for current scholarship on these pieces. James Mease, M.D. (1771-1846) was a polymath who published on an number of different subjects, including medicine, geology and history. His *Picture of Philadelphia* (1811) is a foundational work of local history and contains the first useful description of the U.S. Mint operations. In addition, he is considered to be the first writer to publish on the subject of U.S. numismatics. In a groundbreaking series of three articles (of which this is the last), Mease examined U.S. medals and coins from the perspective of the numismatist. In his groundbreaking lecture on the topic of U.S. numismatic literature, William S.F. Meyers noted that "the first actual attempts at systematic classification and record of the coins struck in or for the American colonies and United States, appear in the shape of papers to be found in the collections of State Historical Societies" ("The Literature of American Numismatics," *Norton's Literary Letter*, No. 3, 1859, p. 6). Mease's articles are specifically mentioned by Meyers in his article, showing that these works, long forgotten until recent years, were still in the memory of some in the late 1850s. Handsome Set of Mehl's Numismatic Monthly

434 Mehl, B. Max [publisher]. *MEHL'S NUMISMATIC MONTHLY*. Volumes I–X (Fort Worth: Mehl, 1908–1919), complete, bound in seven volumes. 8vo, later matching black quarter morocco, with purple cloth sides; spines with five raised bands, ruled and lettered in gilt; original printed card covers mostly bound in (lacking from first volume). 1756 pages; numerous halftone text illustrations of coins; portraits of famous American and Canadian numismatists, etc. A near fine set. **\$1200**

A well-preserved set, in matching black quarter morocco. An underrated source of information, *Mehl's Numismatic Monthly* is especially rich with word sketches of turn of the century American numismatists, often accompanied by individual or group photographs. Also featured are short monographs on many unusual numismatic topics, including a wealth of data on Canadian numismatics. Of Mehl and his *Monthly*, John Adams has written, "Launched in January of 1908, the early volumes of the *Monthly* are easily the equal of *The Numismatist*, boasting original articles by such gifted writers as R.W. McLachlan, Edgar Adams, Howland Wood, George Blake, Dr. Eugene Courteau, J.W. Haseltine and Frank Stewart." Ex Barry Tayman Library, with his bookplate.

A Deluxe, Photographically Illustrated Dunham Catalogue

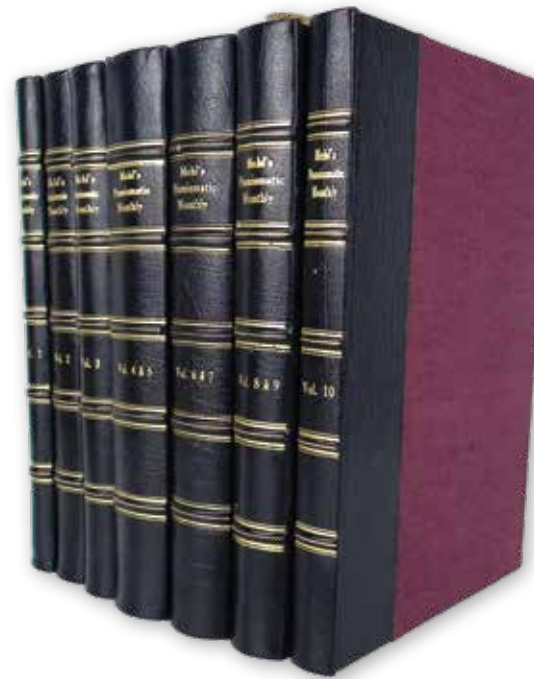

435 Mehl, B. Max. *CATALOG OF THE CELEBRATED NUMISMATIC COLLECTION FORMED BY WILLIAM FORRESTER DUNHAM, CHICAGO, ILLINOIS. COMPLETE SERIES OF THE UNITED STATES COINAGE FROM HALF-CENTS TO TWENTY-DOLLAR GOLD, FROM THE FIRST COINAGE TO 1936, INCLUDING THE MOST FAMOUS OF ALL RARITIES. THE "KING OF AMERICAN COINS" THE 1804 DOLLAR! AND THE "KING OF ALL RARITIES" THE 1822 HALF EAGLE! ...* Fort Worth, June 3, 1941. 4to [27.5 by 20.5 cm], original maroon grained full leather, gilt. 287, (1) pages; 4169 lots; frontispiece portrait of Dunham; text illustrations; 3 fine double photographic plates comprised of 6 greatly enlarged photographic prints, mounted back-to-back, depicting both sides of the 1804 dollar, the 1822 half eagle and the 1855 Kellogg & Co. proof \$50 gold; prices realized list laid in; encased postage stamp section neatly priced in ink. Binding a little rubbed, with wear to head and tail of spine. Very good or better. **\$750**

The Deluxe Leatherbound Edition. From the library of C.E. Green, with his name stamped in gilt at the base of the front cover. Inscribed by Mehl in blue ink on the front flyleaf: "To my esteemed friend C.E. Green, whose fairness, friendship and numismatic knowledge is appreciated and valued most keenly. With every good wish, Sincerely, B. Max Mehl, May–12–1941." Also autographed by Mehl at the base of the title. Adams 97, rated A+: "Landmark sale. Virginia shilling. 1822 \$5. Proof Kellogg \$50. MS 1822 10¢. 1804 \$1, 12 page write-up. Proof 1852 half cent, original. Definitive for encased postage, pattern dimes. Fine Confederate, Canadian, hard times tokens." The only Mehl catalogue issued with photographic plates. Rare; perhaps fewer than twenty-five copies were originally issued. Dunham's collection of American coins is one of the finest ever to cross the auction block. At the time, Mehl considered the sale to be the "capstone" of his long and distinguished career. In the foreword, Mehl recounted meeting Dunham "One evening in June 1910, while Mrs. Mehl and I were in Chicago on our belated honeymoon, a refined gentleman called on us at our hotel, introducing himself as Mr. Dunham. 'I came to pay my respects to both of you,' he said. He handed Mrs. Mehl a box of candy, and he handed me a box, the contents of which he invited me to examine, admonishing me to do so very carefully. I recall there were several important American numismatic rarities, but just what they were I do not now recall for the reason that the 'shining light' of the little lot was no less than the 'King of American Coins,' the 1804 dollar! The first I had ever seen... from that evening in June, 1910, my dream and ambition was to some day be the fortunate dealer to catalogue the famous 'Dunham Collection.'" Charles E. Green was a well-known coin dealer doing business in Chicago from the 1930s to the 1950s. Green's spouse Ruth Scrivner was also active in the firm, which conducted business under the name of R. Green, also the "Numismatic Book Shop." Bibliophiles remember Green for the 1936 *Mint Record and Type Table*, and, especially, for the first reprint of Crosby's *Early Coins of America*, issued in 1945 and bound, appropriately enough, in green cloth. Stephen Nagy Pursues the Hale Collection

441 Nagy, Stephen K. TWO AUTOGRAPH LETTERS, SIGNED, TO R.H. MULL, ATTEMPTING TO PURCHASE THE JOHN M. HALE COLLECTION. Philadelphia: November 1, 1917 and May 14, 1918 Letters dated November 1, 1917 and May 14, 1918, clearly written in black ink on two different types of letterhead for Ye Olde Curiosity Shop, of 33 S. 18th St., Philadelphia. Folded for mailing, else fine. **\$100**

Original correspondence between Philadelphia coin dealer Stephen Nagy and Reuben Harold Mull, a relative of John Mills Hale (1839–1894), who purchased the Davis example of the 1804 dollar in 1890. Henry Chapman was also attempting to purchase the Hale collection around the same time, suggesting that the ownership of the collection had transferred within the family recently. As it was, the 1804 dollar remained in the Hale/Mull families until 1950. Nagy letters are infrequently encountered.

An Exceptional, Finely Bound Complete Set

442 New Netherlands Coin Company. AUCTION SALE CATALOGUES. NOS. 1-66 WITH SIX MAIL-BID SALE CATALOGUES. New York, 1940-1977. A complete set of numbered sales, and most of the mail-bid sales, the majority with printed prices realized lists, finely bound in six volumes. Varying formats, later matching blue quarter morocco; spines with five raised bands, ruled in gilt; black morocco spine labels, gilt; original printed paper or card covers bound in where issued. Two of the mail-bid sales, and a photocopy of another, are loosely laid in. A few letters from principals of the firm are bound in. Two volumes with spines slightly sunned; generally fine or nearly so. **\$3000**

An exceptional set, from the library of John W. Adams, finely bound by Harcourt Bindery. "In November, 1950, Charles Wormser hired John Ford, and perhaps the most important chapter of numismatic cataloguing was begun. Sometimes abrasive but always insightful, Ford ranks in a class with Sylvester Crosby, Lyman Low, David Proskey, and Wayne Raymond as one of the great numismatists this country has produced. His cataloguing features meticulous accuracy and conservative grading; his descriptions are full and informative, covering a range of material that spans the gamut of our hobby. Others have rivaled Ford's penchant for detail, but none have better explored the by-ways of history and tradition for which numismatics are such a natural entry. As if one world-class numismatist were not enough, New Netherlands hired Walter Breen in 1952. Blessed with a restlessly inquiring mind and a prodigious memory, Breen added new dimensions to the firm's research. His findings on die states, diagnostic features and the then condition census add another rich layer to the utility that New Netherlands' catalogues will always possess... Sale 1 through 25 are either scarce or, in a few cases, rare... The New Netherlands catalogues represent something special in American numismatics. They demonstrate with eloquence that the business of dealing in coins can also embrace the functions of educating the collector and preserving the traditions of the hobby. In so doing, the members of the firm have set an example which, though rarely observed, will nonetheless act as a beacon to the profession in years to come" (Adams Volume II, page 194). This is the nicest set of these important catalogues that we recall ever handling. Ex John W. Adams Library; ex Charles Davis's sale of November 16, 2013, lot 415 at \$5500 hammer; ex Craig Smith Library.

Loose sheets of varying size, as issued, printed on one side, housed in a printer's envelope. 59 leaves; 1328 lots. A small number of lots have been annotated in blue ink, presumably by Harvey Stack (whose name is on the envelope). Fine or nearly so. **\$100**

An interesting pre-publication version of this 1960 New Netherlands sale. Clearly, the firm had a set of the galley proofs sent to Stack's as a sort of advance copy, to give them extra time with the catalogue and encourage their participation. Ex Wayne Homren Library.

A Plated Parmelee Sale

445 New York Coin & Stamp Co. CATALOGUE OF THE FINEST EXISTING COLLECTION OF AMERICAN COINS, THE PROPERTY OF MR. LORIN G. PARMELEE, OF BOSTON, MASS. New York: Bangs & Co., June 25–27, 1890. 4to, later maroon cloth, gilt; original gilt-printed front paper cover bound in. 96 pages; 1443 lots; fine portrait of Parmelee; 13 fine tinted photographic plates. Hand-priced throughout in black ink. Fine. **\$1500**

Adams 4, with plated. An outstanding sale, rated A+: “Absolutely definitive for patterns, colonials (several unique), and regular issue gold, silver and copper.” Parmelee’s remarkable collection has frequently been regarded as the finest collection of American coins ever formed. One hundred copies were issued with plates (though most haven’t survived), attractively tinted to approximate the metal color of the coins depicted. The presentation of the Federal issues is rather unique. Arranged chronologically rather than by denomination, this innovation was not well received at the time, and has seldom been used since. A famous and highly successful Boston bean baker, Parmelee began collecting coins by sorting through the large cents from his daily receipts. He sold duplicates but continually upgraded his personal collection. In his first major coup, he purchased the superb collection formed by George F. Seavey, which was slated to be sold at auction. He acquired the Brevoort collection in 1876, the magnificent Bushnell collection in 1882, and purchased many rarities from Sylvester Crosby. The first two plates illustrate copper patterns and colonials; plates 3 and 4 depict silver patterns and colonials; plate 5 illustrates copper colonials and Washingtonia; plate 6 is mainly devoted to early cents and half cents; plates 7 and 8 largely depict superb early United States silver coins; plates 9 and 10 are devoted to choice cents and half cents; plates 11 and 12 mainly illustrate United States and gold patterns, including a Brasher doubloon; and the final plate is devoted to large denomination nineteenth-century United States silver coins. Binding a bit worn, with spine head a bit loose and joints cracked at either side from being pulled. Very good or better. **\$1500**

Edgar H. Adams’s personal copies of these fabled early pattern sales, subsequently in several other notable librar-

ies. Despite the discovery of multiple copies in the Bass Library, the plated Woodside catalogue remains a true rarity, with perhaps only a dozen or so examples of the 100 copies supposedly issued appearing to have survived. Woodside's collection featured over 400 United States pattern coins and is one of the finest ever formed. The plates in the example present here appear to have been hand-picked and are perhaps the finest to have survived. The volume at hand, however, is special for reasons beyond the Woodside plates. Not only are both of the celebrated Linderman catalogues and the important Doughty pattern sale included, all of the catalogues are hand-priced (excepting of course the 1887 Linderman sale, which never took place). Even more significantly, the volume at hand once belonged to the man who wrote the book and, perhaps more than anyone, helped to popularize these remarkable metallic witnesses of "what might have been." Inscribed First Printing of *The Fantastic 1804 Dollar*

447 Newman, Eric P., and Kenneth E. Bressett. *THE FANTASTIC 1804 DOLLAR*. First printing. Racine: Whitman, 1962. 8vo, original brown textured cloth lettered in silver. 144 pages; illustrated. Inscribed and signed by both authors on the front flyleaf in the year of publication, and later inscribed and signed again by author Newman to Craig Smith. A copy of the second printing is also included. Fine. **\$300**

The scarce first printing of this classic work, copies of which are more accurately considered bound page proofs issued in very small numbers immediately before the presses were fired up to print the entire run. Indeed, this copy is identified by the authors as exactly that: "Bound page proofs in need of correction," reads the inscription dated Sept. 12, 1962 and signed by both Newman and Bressett. The backstory behind this volume is the stuff of numismatic legend. Newman and Bressett's work had led them to the conclusion that the story of sets of 1834 and 1804 coins being issued for the Imam of Muscat and the King of Siam were myths—there was no evidence of such gifts having been issued. The book was due to be printed during the 1962 ANA convention, at which the discovery of the King of Siam set (including the 1804 dollar) was announced by David Spink and James Risk. This announcement elicited a frantic application of editorial brakes, as Newman and Bressett had to accommodate this new information and revise their publication to take it into account. What turned out to be an outstanding numismatic work could have been issued with a major flaw had it been prepared in time to be on sale at the ANA. See the extensive article by Len Augsburger and Joel Orosz in the Winter 2020 edition of *The Asylum*. A popular item, these have always been considered quite rare, though the presence of half a dozen or so of them in the Newman Library made them somewhat more available. Ex Craig Smith Library.

One volume with a missing rear card cover, but overall a near fine set. **\$750**

The official published records of the oldest numismatic organization in the country to last for any significant amount of time. Founded in January 1858, three months before the formation of the American Numismatic Society, the Numismatic Society of Philadelphia was created when eight local numismatists "who had long felt the want of such an association, organized a society for the purpose of prosecuting their favorite study in a more systematic and satisfactory manner. The mania for coin collecting was then raging fiercely, and desires had arisen with very many persons to become better acquainted with the science" — *Proceedings*, 1867. The first volume here present is very important, bringing together several early publications that are rarely met with. Included are biographical sketches of deceased members James Hall, Mark Wilks Collet, Richard Davids and Frederic Vaux. Also included are a number of papers read before the society, including Henry Phillips's *Some Observations on Early Currency of Maryland*, Charles Hart's *A Historical Sketch of the National Medals Issued Pursuant to Resolution of Congress, 1776–1815*, and Phillips's *The Pleasures of Numismatic Science*. No proceedings volumes were published between 1867 and 1877, so the present set is likely complete. While the Society emphasized antiquarian studies in later years, it continued to publish interesting numismatic articles, including one by John Story Jenks, being a talk that he gave on January 4, 1906, illustrated by coins from his own collection. First volume ex George W. Rode Library, later in the library of John R. Sheckells (Kolbe Sale 26, lot 511); all ex Barry Tayman Library.

A rare original of this fantastic early photographic case with a numismatic design. The United States Mint reproduced a variation of this case design for their 1995 Civil War Battlefield Preservation commemoratives. The standard reference work on these cases, Paul Berg's *Nineteenth Century Photographic Cases and Wall Frames*, considers these to be Very Rare: "less than 60 copies known, very difficult to find." While the photograph has since been replaced within the case, it was carefully removed in order to obtain the information recorded above—photographs of the interior are available in the online listing.

Small 4to, original brown cloth; jacket. xiv, 186 pages; illustrated. Front flyleaf with printed limitation notice signed in ink by Wendell Chino, President of the Mescalero Apache tribe. Fine. **\$100**

An indispensable reference work. This copy is one of 350 that were distributed by the Mescalero Apache Tribe to accompany examples of a Peace Medal struck in commemoration of the 1973 centennial of the establishment of the Mescalero Indian Reservation. These copies are rarely encountered in numismatic channels. Clain-Stefanelli 15082*. Ex Wayne Homren Library.

Wayte Raymond Book Lists

455 Raymond, Wayte. CATALOGUES OF NUMISMATIC BOOKS. New York. Three fixed price lists, two of them dated October 1920 and 1922, the third undated but from the same general period. 8vo, self-covered, as issued. Very good. **\$100**

Scarce fixed price catalogues from Raymond. In addition to new publications of the time, Raymond offered a nice selection of rare and out-of-print titles, some of which are rather impressive.

The Rare Leatherbound Edition

456 Raymond, Wayte. PRIVATE GOLD COINS STRUCK IN THE UNITED STATES, 1830–1861. A COMPLETE ILLUSTRATED LIST OF THE VARIOUS COINS ISSUED BY PRIVATE ASSAYERS IN GEORGIA, CAROLINA, COLORADO, UTAH,

OREGON AND CALIFORNIA. New York, 1931. Original brown limp full leather, gilt. 32, (32) pages; illustrated. Spine worn; interior very good. **\$100**

The scarce Deluxe Leatherbound Edition. Compiled and published to make available for the first time "a complete illustrated list of the various coinages..." Ex Craig Smith Library.

Featuring Indian Peace Medals

457 Raymond, Wayte. **IMPORTANT COLLECTION OF GOLD COINS FORMED BY THE LATE GIOVANNI P. MOROSINI. CHIEFLY ITALIAN AND OTHER EUROPEAN RARITIES, BELONGING TO THE ESTATE OF THE LATE GIULIA P. MOROSINI.** New York: American Art Association Sale Number 3985, October 10, 1932. 8vo, original tan printed card covers. (8), 107, (3) pages; 374 lots; well illustrated. Old fold; removed cover label; very good. **\$100**

Adams 15. An outstanding sale. Morosini formed a remarkable coin collection but, coming to sale in the depths of the Great Depression, the results, totaling \$20,162.50, were generally poor. Many of the gold coins sold near bullion value. The sale also included a few notable American medals, including a medium-size Jefferson Indian Peace Medal, a Thos. Macdonough medal in silver, a Palmetto Regiment medal in gold and an 1829 Jackson Indian Peace Medal. Clain-Stefanelli 8009.

Outstanding American Medals

458 Raymond, Wayte. **EARLY AMERICAN HISTORICAL MEDALS. MEDALS PRESENTED TO INDIAN CHIEFS. ORDERS OF CHIVALRY, ART MEDALS AND PLAQUES. COLLECTION OF THE LATE CHARLES P. SENTER.** New York: American Art Association, October 27, 1933. 8vo, original printed card covers. (8), 32, (2) pages, including 4 plates; 248 lots. Fine. **\$100**

Adams 16. Rated A+, overall: "Hurriedly written but a landmark medal sale. Betts series: Matanzas, Albemarle, Oglethorpe, 285 Vernons. U.S. Series: Stewart, De Fleury, Felicitas Britannia. Rich in peace medals: 'Happy While United,' 1793 oval Washington, Astor and many more." Ex Kolbe & Fanning Sale 137, lot 155; ex Cardinal Collection Library (Kolbe & Fanning Sale 164, lot 349).

Raymond's Coin Collector's Journal

459 Raymond, Wayte, et al. [editors]. **THE COIN COLLECTOR'S JOURNAL.** New Series. Volumes 1–21, complete as published in 160 issues [two different issues numbered 116 were published; number 140 was never issued]. New York: Scott Stamp & Coin Co. and Wayte Raymond, 1934–1958. 8vo, first 14 volumes bound in the original publisher's blue cloth, gilt; subsequent issues present in original paper or card covers, as published. A bit musty and dusty; very good. **\$300**

First published by J.W. Scott from 1875 to 1888, this new series of the *Coin Collector's Journal*, like its predecessor, is indispensable to numismatic historians, bibliophiles and researchers. It covers the entire range of numismatics, from ancient coins to then-current United States and foreign issues, and its numerous monographs, while rarely lengthy, often provide useful information found nowhere else. Starting with Whole Number 141, issued January–February 1952, the *Journal* essentially ceased being a house journal with varied content and each of the remaining issues comprises a stand-alone monograph. The first 14 volumes in this set are the bound annual volumes distributed by the publisher. Clain-Stefanelli 485.

Complete Coin Topics

460 Raymond, Wayte [publisher]. **COIN TOPICS.** New York, 1936–1940. Numbers 1–16, complete. 8vo, self-covered as issued. Generally near fine. **\$100**

An interesting publication that reaffirms the central role played by Raymond in the hobby during the first half of the 20th century. This constitutes a complete set of the numbered issues: an unnumbered *Coin Topics Introduction to Coin Collecting* is not included.

Complete Later Raymond Sales

461 Raymond, Wayte. **MAIL-BID SALES.** New York and Mineola, 1937–1950. Fifty-three catalogues, being a complete set of the later mail-bid sales held under Raymond's name. Includes Adams Sale Numbers 17–69, complete. Varying formats, all in original covers as published. All but Adams 21, 30, 31, 35–37, 43–45, 61–63, 65 and 67–69 are either hand-priced or include a printed prices realized list. Generally near fine or better. **\$600**

Adams 17–69. A complete set of the Raymond mail-bid sales of the 1930s onward, including the two rarities of the

series: Sale 44 (July 15, 1941) and the final sale, one of three held toward the end of Raymond's career in Mineola, New York. Neither of those two sales were in the otherwise complete sets formed by John W. Adams or Doug Robbins. The three 1943 catalogues issued with paper covers in sextodecimo format all include the prices realized lists.

Complete Morgenthau Sales

462 Raymond, Wayte, and J.G. Macallister [J.C. Morgenthau]. AUCTION SALE CATALOGUES. New York, 1932–1945. Adams Sale Numbers 1–53, complete. 4to and 8vo formats, as published; original printed card covers. Sale 11 includes the separate Supplement. Sales 4, 13, 19, 20, 21, 23, 25–31, 33, 35, and 39–52 are either hand-priced or include a printed prices realized list. Sale 34 is signed by Raymond and is partly hand-priced with some annotations. Also included is the firm's 1933 fixed price list of a numismatic library and two of the firm's non-numismatic catalogues. Catalogues generally near fine or better, with a few exceptions. **\$750**

Adams 1–53, complete. The Morgenthau series brought together two talented numismatists whose particular skill sets complemented the other's nicely. As a team, they were able to develop a refined clientele and attend to their requirements, whether buying or selling. The combination of people skills and numismatic capabilities was clearly successful, and the partnership lasted until Macallister's death in 1945. Unlike the catalogues of the United States Coin Company, which are decidedly scarce and often genuinely rare, the Morgenthau catalogues are fairly available—though complete runs are infrequently encountered. Notable sales include: the 1933 “Great American” sale offering material from the Virgil Brand collection; several auctions with important offerings from the Waldo Newcomer collection; two sales devoted to ancient coins from the Russell Burrage collection (depicted on 16 halftone plates); the William Festus Morgan large cent sale; the two-part auction of Howard R. Newcomb's large cent collection; and several sales offering exceptional coins anonymously.

Bound Morgenthau Sales, ex C.E. Green

463 Raymond, Wayte, and J.G. Macallister [J.C. Morgenthau]. AUCTION SALE CATALOGUES. New York, 1932–1940. Bound volume featuring twenty-three catalogues, being Adams Sale Numbers 2, 3, 5, 6, 7, 8, 10, 11, 12, 13, 14, 16, 17, 27, 28, 30, 31, 32, 33, 34, 35, 44 and 45. All but Sales 6 and 11 are either hand-priced or have a printed prices realized list bound in. 8vo, later red cloth, gilt; original printed card covers bound in. Fine. **\$200**

While the Morgenthau catalogues are fairly available, priced copies of the earlier sales are infrequently encountered. Ex Armand Champa Library, with a note stating that he had the volume bound by Alan Grace.

Heavily Annotated Festus Morgan Large Cent Sale

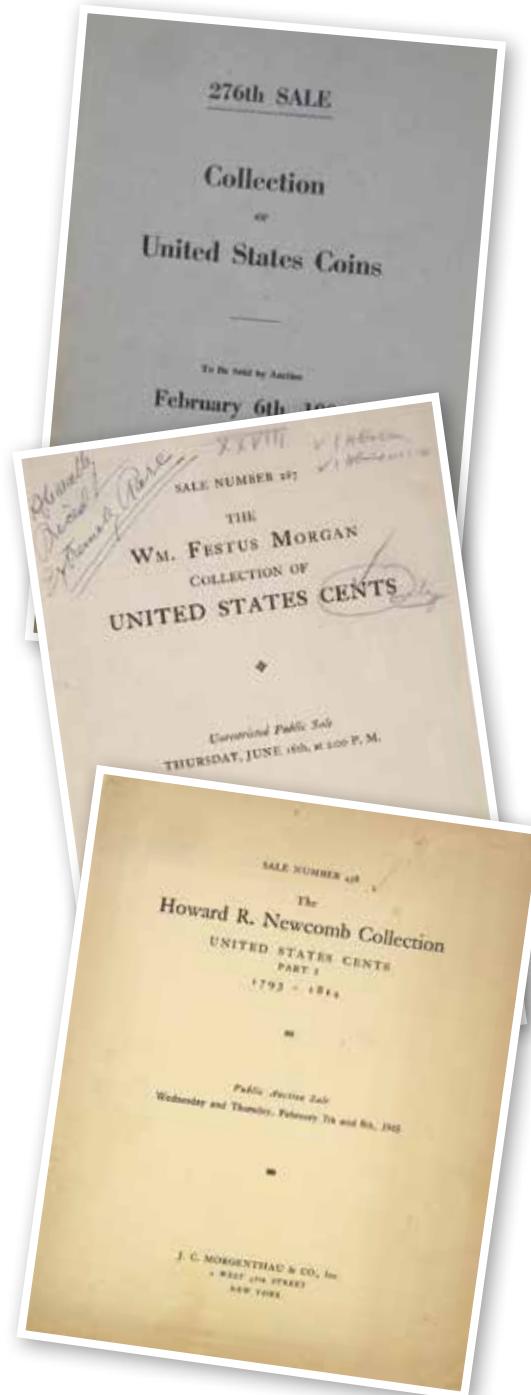

464 Raymond, Wayte, and J.G. Macallister [J.C. Morgenthau]. THE SUPERB COLLECTION OF UNITED STATES CENTS FORMED BY THE LATE WM. FESTUS MORGAN OF COOPERSTOWN, N.Y. New York, June 16, 1932. 8vo, original printed card covers. 24 pages; 433 lots. Mostly hand-priced in pencil, with some interesting annotations throughout. Covers discolored and dusty; middle leaves loose from stapled binding; staple rust. Good. **\$100**

Adams 4. While certainly not the most attractive copy of this catalogue, the annotations and pricing makes it special. Morgenthau catalogues had a reasonably good distribution, but actual attendance at their sales would seem to have been small, given the scarcity of sale-room copies of their catalogues. The Festus Morgan collection of United States large cents was important, making this useful for provenance study. Rated A– overall: “Superb cents, rich in late date proofs and containing runaway examples of 1793, 1794, 1799, 1806, 1808 and 1824.” Ex John W. Adams Library (Kolbe & Fanning Sale 150, lot 345).

Rare Hardcover Edition

465 Raymond, Wayte, and J.G. Macallister [J.C. Morgenthau]. New York: Sale Number 328, February 16–17, 1934. 8vo, original red cloth, gilt; original printed card covers bound in. 36, (4) pages; 1024 lots. Fine. **\$200**

Special Hardbound Edition. Adams 12: “Betts medals. Seasons medals plus 6 regular series peace medals. 1843 Washington/Mead medal. Specimen fractionals. ‘Non Vi.’ Nice library.” The first copy we have offered in years.

Special Edition 1935 Newcomer Sale

466 Raymond, Wayte, and J.G. Macallister [J.C. Morgenthau]. **THE WALDO NEWCOMER COLLECTION. PART I: GOLD AND SILVER COINS OF MEXICO, WEST INDIES, SOUTH AND CENTRAL AMERICA AND THE FAMOUS BRITISH COLUMBIA TEN AND TWENTY DOLLAR PIECES.** New York: Sale Number 345, February 12–13, 1935. Small 4to, original red cloth, gilt. 42, (2) pages; 744 lots; 12 plates. Original prices realized list laid in. Cloth sunned; very good or better. **\$150**

The Special Hardbound Edition. An important sale for Central and South American material, with especially impressive gold coins. The \$10 and \$20 British Columbian patterns are present in gold and silver. Adams 18 (rated A for the Americas, B+ overall).

Annotated Newcomb Large Cent Sale

467 Raymond, Wayte, and J.G. Macallister [J.C. Morgenthau]. **PART I: UNITED STATES CENTS, 1793–1814. THE HOWARD R. NEWCOMB COLLECTION. RARE UNITED STATES GOLD AND SILVER COINS.** New York, February 7–8, 1945. Crown 4to, original printed card covers. (2), 50, (2) pages; 906 lots; 7 plates. Annotated throughout in both ink and pencil, being entirely priced, and with considerable annotations (see comments). A number of buyer's names are recorded throughout. Covers taped and worn, with overall condition only good. **\$150**

Adams 52, rated A: "Newcomb's fabulous collection of early date cents — a landmark in the hobby, exceeding in breadth and quality anything auctioned before or since. Sale is also rich in choice early silver." Important. An intriguing copy of this notable sale. A note laid within states that this was Raymond's copy, but we are hesitant to make this claim. The style of some of the annotations does resemble what we have seen in Raymond's account copies, but many of the other annotations (those providing die variety attributions, etc.) do not seem to make sense coming from Raymond. We offer this instead simply as a highly interesting annotated copy of an important sale.

The First Bank Failure in the U.S.

468 Rhode Island, State of. **REPORT OF THE COMMITTEE APPOINTED BY THE GENERAL ASSEMBLY OF THE STATE OF RHODE-ISLAND AND PROVIDENCE PLANTATIONS. AT THE FEBRUARY SESSION, A.D. 1809, TO INQUIRE INTO THE SITUATION OF THE FARMERS' EXCHANGE BANK IN GLOCESTER, WITH THE DOCUMENTS ACCOMPANYING THE SAME.** Published by Order of the General Assembly, March Session, A.D. 1809. 8vo, later marbled paper covers. 43, (1) pages. Foxing; else near fine. **\$300**

The report of the state investigation of the first bank failure in the United States. Established in the village of Chepachet 1804, the Farmers' Exchange Bank was in disarray from the beginning. The report finds "that from the first commencement of the institution it has been conducted, as the perplexed and confused state of the books sufficiently evinces, negligently and unskilfully; and that the Directors had at no time a proper knowledge of the affairs of the Bank. ... It appears to the Committee that the capital stock was not paid in according to the provisions of the Charter." The bank issued paper money in amounts far beyond what it could cover. Its collapse led to widespread insecurity over the use of paper money and general uncertainty regarding the banking system. Rare. Sabin 27585. Shaw & Shoemaker 18510.

Guides to Early American Coppers

469 Robinson, Jack H. **COPPER QUOTES BY ROBINSON.** Eight numbered editions, being the 9th, 11th, 13th, 14th, 16th, 18th, 19th and 20th editions (1990–2011), plus a published edition (number unassigned) dated 4/1/1985 and being the first to include half cents and middle- and late-date large cents. All 8vo, original printed card covers, the later editions being spiral-bound. Some with annotations; generally near fine. [with] Noyes, William C. **PENNY PRICES: A PRICE GUIDE FOR 1793–1857 HALF CENTS AND LARGE CENTS.** First and second editions (July 2003 and July 2005). 8vo, original spiral-bound printed card covers. Fine. **\$100**

Enormously important price guides, with continual updates on rarity and the condition census, which became essential for anyone seriously collecting United States half cents and large cents. The 20th edition was published dated 4/30/2011, and is the last we know of. In July 2003, Bill Noyes published the first edition of his *Penny Prices*, which covered similar ground but using a different approach (and which was published in a handy spiral-bound format that was also adopted by *CQR*).

A San Francisco newspaper published the very morning the San Francisco Mint opened its doors for business. While the opening is not discussed, the paper includes a report on page 2 regarding the deposits of gold and silver made at the Philadelphia Mint in February 1854, and the resulting coinage, noting specifically the gold that came from California.

First Printing of Slafter on Vermont

472 Slafter, Rev. Edmund. THE VERMONT COINAGE. First edition. In *Collections of the Vermont Historical Society*, Volume I (Montpelier: Vermont Historical Society, 1870). 8vo, original dark brown embossed cloth, gilt xix, (1), 508 pages [Slafter's article comprises pages 291–318 and features 2 lithographic plates]. Binding somewhat worn; previous owner's bookplate; contents very good or better; second volume also present. **\$300**

The Rev. Edmund Slafter's seminal work on the early coins of Vermont was the first specialized monograph on such a topic: while others had written short articles and general surveys of colonial coins, Slafter attempted a focused, serious look at one particular series. It was first published here in the *Collections of the Vermont Historical Society* (1870), a scarce volume offered only infrequently. The article was also published as an offprint, bound separately and limited to 50 copies, which is extremely rare today. Ex Craig Smith Library.

Seven different cards, each around 9 by 18 cm with two photographic images of mint-related or BEP-related scene. Stereograms were popular around the turn of the 20th century, and were available depicting a variety of topics. Sets of cards depicting work being conducted at the U.S. Mint and the Bureau of Engraving and Printing were designed to entertain the general public with views of enormous amounts of money being produced. While not made with numismatists in mind, they provide rare views of working conditions and processes in these institutions and are appreciated today by collectors. Ex Wayne Homren Library.

The Dr. Clay Sale, with Photographic Plates

481 Strobridge, William H., and W. Elliot Woodward. CATALOGUE OF A VALUABLE COLLECTION OF AMERICAN COINS & MEDALS, THE PROPERTY OF CHARLES CLAY, M.D., OF MANCHESTER, ENGLAND. New York: Leavitt, December 5–7, 1871. 8vo, modern maroon half calf with marbled sides, decorated in blind; spine ruled and lettered in gilt; original printed paper covers bound in. 97, (3) pages; 1356 lots; 2 fine photographic plates. Hand-priced in blue ink. Fine. **\$300**

Adams 9 (with plates) for the Strobridge series and C for the Woodward series, receiving his highest rating (A+ overall, A in large cents, colonials, Washington, comments and British). A significant sale, the photographic plates of which depict mostly colonial coins (for which the sale is very important) and large cents. Clay was a Manchester numismatist mostly remembered today for this sale and for his work on the coinage of the Isle of Man. Attinelli 62, where he implies that Strobridge, though credited on the title as the cataloguer, may have played a lesser role: "Messrs. W.E. Woodward and W.H. Strobridge also contributed slightly to the above sale." The presence of very obvious counterfeits in the sale (including two NE "pennies") makes one wonder about the level of involvement by Woodward (though Strobridge specifically mentions them in his introduction). Bound by Alan Grace while he was still in Devon. Davis 1025. Ex Barry Tayman Library.
